

SPRIDER

OPTIONAL REMOVABLE ATTACHMENT

Pave faster, spread smarter. Precision material unloading for maximum efficiency. Through the flexible and remote-controlled transport arm, the asphalt is spread where it is needed and in the right volume. The flexible screw conveyor is perfect for laying asphalt on smaller or irregularly shaped surfaces.

- **Controlled Unloading**
  Discharge material at the desired speed or rate.
- **Removable Sprider Mounted Attachment**
  Unload material in hard to reach areas
  Sprider Transport Arm full extension: 16 ft
- **Multi-Location Drops**
  Deliver partial loads at multiple locations.

GINCOR WERX

LIVE BOTTOM TRUCK MOUNT

POWER IN MOTION. TOTAL CONTROL.

LIVE BOTTOM TRUCK MOUNT

The GINCOR Werx Live Bottom Truck Mount is engineered for efficiency and safety. More control with less clean-up and waste. Forget about overhead wires, low clearance, and risk of tipping over.

Unlike traditional unloading methods, it delivers smooth and controlled unloading for safer operation, precise material placement, and improved job site efficiency.

Take your hauling and unloading capabilities to the next level when you add the GINCOR Werx Live Bottom Truck Mount to your fleet.

What Sets GINCOR Apart? Better-Built Live Bottom Truck Mounts

Designed and built for your use, trusted worldwide for durability and real-world performance. Engineered-to-order solutions designed around your needs and applications—not the other way around.

Experienced service and technical support from people who know the equipment inside and out. Proven performance in demanding conditions, across materials, climates, and job sites.

FEATURES & BENEFITS

KNIFE GATE

Heavy-duty design for precise control and clean material shutoff.

OPTIONAL.

RELEASE AGENT TANK

Optional tank with hose reel and sprayer for applying asphalt release agents.

OPTIONAL.

REVERSIBLE-DIRECTION BELT

Industrial-grade belt system engineered for controlled unloading and recovery.

STANDARD.

SPREADER CHUTE

Rugged rear discharge solution for consistent, accurate material placement.

OPTIONAL.

AIR OPERATED TAILGATE

Robust air-actuated system designed for secure transport and smooth unloading.

STANDARD.

BELT OPTIONS

High-performance belt configurations matched to demanding materials and workloads.

OPTIONAL.

ELECTRIC SLIDE TARP

Heavy-duty electric tarp system for fast, safe load coverage.

STANDARD.

TARP OPTIONS

Our sliding tarp system offers fast, secure coverage, while our side-rolling tarp system reduces bulk and maximizes access.

OPTIONAL.

FULLY INSULATED WALLS WITH HEATED PANELS

Engineered to maintain material temperature even in harsh, cold-weather conditions.

OPTIONAL.
