

READY. SET. GO!

Make investing part of your overall plan.

Set your goals

Start early

The earlier you start, the easier it will be to reach your goals.

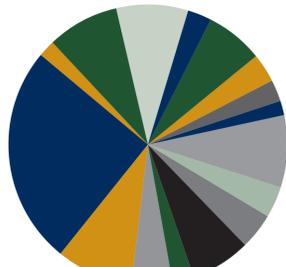

You have to save 15x more per month to reach \$1M by age 65 if you start saving at 55, versus if you start at 25.¹

Understand:

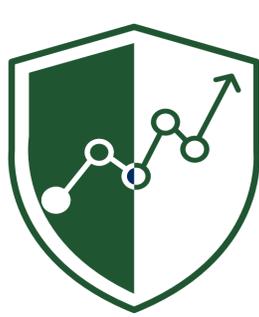

For every bear there's a bull, and for every bull there's a bear.

There are always ups and downs, but staying invested is important to help reach your long-term goals.

Diversification can help you minimize risk ...

... and reach your financial goals over the long term.

A mix of growth and protection strategies ...

... can be the optimal route to financial success.

Place your trust in a financial advisor:

Advisors can help take the emotion out of investing.

Investing based on emotion is hard to avoid without professional support and can lead to poor decision-making.

Past results show a balanced portfolio has yielded:

7.2%*

vs. 2.1% for the average individual investor.²

*Past performance does not guarantee future results.

A professional advisor can create comprehensive, personalized plans that evolve with your needs.

Specialized tools and know-how are key to planning, executing, and managing a successful long-term investment plan.

An advisor with Park Avenue Securities can:

Create a diversified portfolio with minimized overlap and volatility.

✓ DIVERSIFICATION³

Help you avoid common risks while focusing on protection and growth.

✓ PROTECTION AND GROWTH

Assess the amount of risk that's most appropriate for you individually.

✓ RISK TOLERANCE

Help manage the emotional reaction that can undermine an investment plan, and take a longer, strategic view to drive portfolio growth through market fluctuations.

✓ MARKET FLUCTUATIONS

Help determine how your money should be allocated across asset classes.

✓ ASSET ALLOCATION³

Keep your portfolio balanced and on target with as-needed rebalancing to stay in line with your objectives.

✓ PORTFOLIO REBALANCING
