May PRODUCT OF THE MONTH

Eliminate the need to inventory more than 200 individual capacitors, single or dual valve, up to 440 V, with the world’s first universal line of multi-tapped, fluid-filled, metal can, motor-run and motor-start capacitors. The Turbo 200®, 200X, Mini and Mini-Oval have been tested and approved to the highest certification level of UL (Underwriters Laboratories) Standard 810. The Tubro Easy-Start® 5 replaces 4 commonly used hard start kits up to 5 tons (324 MFD) with a completely enclosed potential relay.
