COVER DRAWING

*Michigan State Capitol:*

This image, with flags flying to indicate that both chambers of the legislature are in session, may have originated as an etching based on a drawing or a photograph. The artist is unknown. The drawing predates the placement of the statue of Austin T. Blair on the capitol grounds in 1898.

PAGE GRAPHICS

*Capitol Dome:*

The architectural rendering of the Michigan State Capitol’s dome is the work of Elijah E. Myers, the building’s renowned architect. Myers inked the rendering on linen in late 1871 or early 1872. Myers’ fine draftsmanship, the hallmark of his work, is clearly evident.

Because of their size, few architectural renderings of the 19th century have survived. Michigan is fortunate that many of Myers’ designs for the Capitol were found in the building’s attic in the 1950’s. As part of the state’s 1987 sesquicentennial celebration, they were conserved and deposited in the Michigan State Archives.

*East Elevation of the Michigan State Capitol:*

When Myers’ drawings were discovered in the 1950’s, this view of the Capitol – the one most familiar to Michigan citizens – was missing. During the building’s recent restoration (1989-1992), this drawing was commissioned to recreate the architect’s original rendering of the east (front) elevation.

An annual supplement contained those permanent rules, which had appeared in the 4 quarterly supplements covering that year.

Quarterly supplements to the Code were discontinued in January 1984, and replaced by the monthly publication of permanent rules and emergency rules in the *Michigan Register*. Annual supplements have included the full text of those permanent rules that appear in the twelve monthly issues of the *Register* during a given calendar year. Emergency rules published in an issue of the *Register* are noted in the annual supplement to the Code.

A ride’s interior and exterior parts that passengers might come in contact with must be smooth, rounded, free from sharp, rough, or splintered edges or corners, and have no protruding screws or projections that might cause injury. Parts that passengers might be thrown on or against by action of the ride must be adequately padded to prevent or minimize the possibility of injury. The upholstery must be kept in repair, and no loose or flapping portions of upholstery or decoration are allowed.

(2) Propellers or other moving parts or decorations attached to tubs, cars, chairs, seats, gondolas, and other carriers must be securely fastened to this equipment and must be keyed or otherwise secured so that they cannot come off during operation of the ride. Vanes, canopies, or other attachments that might become disengaged must be secured with safety straps to prevent them from flying away in case of breakage or dislocation.

(3) If a device on a ride is shown to have a deficiency or require repairs in the ride’s tubs, cars, chairs, seats, gondolas, or other carriers used, the ride will be considered noncompliant as a whole and must not operate until returned to compliance based on the number of carriers on the device as follows:

(a) For devices with 10 or fewer carriers, the ride, as a whole, will be considered noncompliant and must not operate if 50% or more of the carriers are found deficient.

(b) For devices with more than 10 carriers, the ride, as a whole, will be considered noncompliant and must not operate if 25% or more of the carriers are found deficient.

(4) Subrule (3) of this rule does not apply to go-karts, bumper cars, bumper boats, or individual devices that can be removed or replaced as needed, including, but not limited to, train cars, log rides, or boat rides.

R 408.831 Safety retainers.

Rule 31. Tubs, cars, chairs, seats, gondolas, and other carriers used on a ride that depends on a single means of attachment or support must be equipped with a safety retainer to prevent the carrier, if it becomes disengaged from its support or attachment, from being catapulted from the ride and to prevent any action of the carrier that might throw the occupants from the carrier while the ride is in motion. This rule only applies to rides or situations determined to be hazardous after inspection by an authorized representative of the department and review of the conditions.

R 408.832 Permit-inspection decal.

Rule 32. (1) After a ride has been inspected and authorized for operation, the department shall issue a permit-inspection decal that must be affixed to a basic part of the ride structure in such a manner as to be readily accessible to the authorized inspector. The permit-inspection decal must display the
identification number issued by the department for the individual ride and other information considered necessary by the department.

(2) If the ride is transferred to another owner or operator, sold, rebuilt or undergoes major alterations, it must be reinspected. After completion of the inspection, a new permit-inspection decal must be issued.

(3) If a ride is transferred to another owner or operator or is sold, the permit-inspection decal shall be obliterated by the owner or operator before the transfer or sale.

(4) If a permit-inspection decal is mutilated so that it is no longer legible, the operator shall notify the department and a new permit-inspection decal must be issued.

R 408.833 Rescinded.

R 408.839 Gravity rides.

Rule 39. In addition to complying with other applicable rules, gravity rides must comply with all of the following:

(a) The frequency of departure of carriers from the loading area must be controlled by a ride operator. The minimum distance or time between departures must be determined by the manufacturer or designer of the device.

(b) The ride must have an operator located at the loading area and an attendant at the unloading area.

(c) If the entire ride is not visible to the operator, then additional attendants shall be located at other stations along the ride to ensure complete surveillance of the entire ride. Two-way communication must be provided between the operator and other attendants of the ride.

R 408.839a Waterslides.

Rule 39a. A waterslide that conveys passengers must, in addition to other applicable rules, comply with all of the following requirements:

(a) Each waterslide must be designed and constructed to have a minimum safety factor of 2.

(b) Each waterslide must be designed and constructed to retain the passengers within the waterslide during the ride.

(c) At each loading area, a hard surface that is not earth and is reasonably level must be provided. The surface must be large enough to accommodate the intended quantity of passengers.

(d) If the elevation of a loading surface of a waterslide is more than 12 inches above the elevation of an adjacent area, then guardrails must be installed on the exposed sides of the loading area.

(e) A waterslide may terminate in a swimming pool or in a body of water such as a lake, river, stream, or artificial lake or reservoir. The design of the waterslide and its termination point must meet the requirements of the act and these rules.

(f) If the landing area or runout of a waterslide is in a public swimming pool, the landing area or runout of the waterslide must be specified by the designer. Swimming in this area, other than to exit the flume, landing, or runout area, is prohibited.

(g) If the landing area or runout of a waterslide is in an enclosed tank or in a pool used only to exit the waterslide ride, the landing area or runout must be specified by the designer. This landing area or runout is not a public swimming pool.

(h) Each waterslide must have at least 1 attendant located at the loading area at all times when the ride is being operated for the use of the public. A waterslide attendant shall be trained, prepared, and capable of controlling the frequency of departure of passengers from the loading area. The design and operation of a loading area common to more than 1 course must allow an attendant to remain knowledgeable of the disposition of each passenger. One attendant is sufficient to dispatch riders on more than 1 course from a common loading area if a mechanical system or operational controls are used to regulate rider dispatch on each affected course.
(i) There must be at least 1 attendant in the unloading area at all times when the ride is being operated for the use by the public. An attendant in an unloading area must be trained in cardiopulmonary resuscitation and must be trained, prepared, and capable of assisting any passenger exiting the waterslide. One attendant is sufficient to operate the termination point common to more than 1 waterslide, if the owner or operator provides sufficient attendants in the unloading area to ensure that each attendant can scan the entire area that he or she is responsible for every 10 seconds and respond within the area within 20 seconds.

(j) If the entire water slide is not visible to the attendant at the loading area or if the attendant is controlling entry to multiple courses, then some form of 2-way communication must be provided between the attendants of the ride to ensure that passenger loading is stopped if there are problems.

R 408.843 Rescinded.

R 408.844 Mechanical failure reports.

Rule 44. The owner or operator of a carnival-amusement ride shall report a major breakdown to the department within 24 hours after the occurrence of the incident by telephone or other means of immediate communication. The owner or operator shall confirm this report using the form provided by the department. This report must be forwarded to the department within 7 days after the occurrence of the reportable incident. After being advised of a major breakdown, the department may require that the scene of an accident or major breakdown, or both, be secured and not disturbed to any greater extent than necessary for removal of the deceased or injured individuals. The department may order an immediate inspection of the secured site and the ride must be released for repair and operation only after the inspection is completed.

R 408.848 Control and operation.

Rule 48. An operator shall have knowledge of the use and function of normal operating controls, signal systems, and safety devices applicable to the ride and of the proper use, function, capacity, and speed of the particular ride at all times that it is being operated. When the ride is shut down, provision must be made to prevent the ride from being operated by the public. An individual other than a trained operator shall not be permitted to handle the controls of a ride during normal operation, except where the ride is designed to be controlled by the passenger.

PART 3. PROCEDURES

R 408.872 Emergency applications for permits to operate.

Rule 72. When an owner or operator has not previously intended to operate a ride in this state and has not made application for a permit to operate, the owner or operator, after confirming a booking in this state, shall notify the department and apply for a permit to operate. The notice must be given not less than 30 days before the book date. When an emergency booking makes the 30-day notice impossible, the owner or operator shall notify the department of the booking by telephone or other means of immediate communication and shall confirm this notice in writing. The director shall schedule and arrange for inspection of the rides and the issuance of a permit to operate in conjunction with the owner or operator to best serve the needs of both parties and the orderly administration of the act and these rules. If devices require inspection before operation, the owner or operator shall make every effort to arrive at a location within this state and set up the devices to be inspected.

R 408.874 Daily inspection.
Rule 74. A ride must be inspected and tested on each day it is intended to be used. This inspection must be made by an individual commissioned to perform such inspections by the director. Daily inspection and performance tests must be performed and recorded in a manner prescribed by the manufacturer or ASTM F-24 if manufacturer standards are unavailable, and must be certified by the individual commissioned to perform these inspections. Physical or digital results of these daily inspection and performance tests must be maintained and available to the department for review. These inspection reports must be retained at the operation site until the next inspection is conducted by the director. An owner or operator shall not knowingly use, or permit to be used, a ride that is not properly assembled or is defective or unsafe in any of its parts, controls, or safety equipment.

A term not defined in the act has meaning according to industry usage when used in these rules.

R 500.72 Purpose.

Rule 2. These rules set forth requirements and procedures that the director considers necessary to carry out chapter 13. These rules are necessary and appropriate in the public interest and for the protection of the policyholders in this state.

R 500.73 Severability.

Rule 3. If a provision of these rules, or the application of these rules to a person or circumstance, is held invalid by a court of competent jurisdiction, that determination does not affect other provisions or applications of these rules that can be given effect without the invalid provision or application, and to that end, the provisions of these rules are severable.
R 500.74 Forms; general requirements.

Rule 4. (1) The department shall make available forms, titled Form A, Form B, Form C, Form D, and Form F, that must be used to prepare the statements required under chapter 13. The forms are not intended as blank forms to fill in. The statements filed must contain the numbers and captions of all items. The text of the items may be omitted, as long as the answers to the items clearly indicate the scope and coverage of each item. All instructions, whether appearing under the items of the form or elsewhere in the form, must be omitted. Unless expressly provided otherwise, if an item is inapplicable or the answer is in the negative, an appropriate statement to that effect must be made.

(2) One complete copy of each statement, including exhibits and all other papers and documents filed as part of the statement, must be filed with the director in a manner prescribed by the department. The copy must be signed in the manner prescribed on the form or otherwise prescribed by the department. If an individual or group of individuals are ultimate controlling persons, the individuals shall sign the Form A, Form B, Form C, and Form F statements. The director shall reject a copy that is not properly signed until it is conformed. Excerpts of documents may be filed as exhibits if the documents are extensive. Documents currently on file with the director that were filed within 3 years are not required to be attached as exhibits. References to information contained in exhibits or in documents already on file must clearly identify the material and specifically indicate that the material is incorporated by reference in the answer to the item. Material must not be incorporated by reference if the incorporation renders the statement incomplete, unclear, or confusing.

(2) If an item requires a summary or outline of the provisions of a document, only a brief statement must be made as to the pertinent provisions of the document. In addition to the statement, the summary or outline may incorporate by reference particular parts of an exhibit or document currently on file with the director that was filed within 3 years and may be qualified in its entirety by the reference. If 2 or more documents that must be filed as exhibits are substantially identical in all material respects, except as to the parties, the dates of execution, or other details, a copy of only 1 of the documents must be filed with a schedule identifying the omitted documents and setting forth the material details in which the documents differ from the documents that have a copy filed.

Rule 12. An insurer required to file an annual registration statement under section 1324 of the act, MCL 500.1324, shall furnish the required information on Form B by May 1 of each year for the immediately preceding calendar year, unless an extension is granted by the director under section 1324 of the act, MCL 500.1324.

Rule 15. (1) An authorized insurer may file a registration statement on behalf of an affiliated insurer or insurers that are required to register under section 1324 of the act, MCL 500.1324. A registration statement may include information not required by the act regarding an insurer in the insurance holding company system, even if the insurer is not authorized to do business in this state. Instead of filing a registration statement on Form B, the authorized insurer may file a copy of the registration statement or similar report that it must file in its state of domicile if both of the following are met:

(a) The statement or report contains substantially similar information required to be furnished on Form B.

(b) The filing insurer is the principal insurance company in the insurance holding company system.

(2) The question of whether the filing insurer is the principal insurance company in the insurance holding company system is a question of fact, and an insurer filing a registration statement or report instead of Form B on behalf of an affiliated insurer shall set forth a brief statement of facts that substantiate the filing insurer’s claim that it, in fact, is the principal insurer in the insurance holding company system.

(iii) The holding company system attests that there are no material changes in transactions between insurers and non-insurers in the group that have occurred since the last filing of the report to the lead state commissioner and the non-insurers within the holding company system do not pose a material financial risk to the insurer’s ability to honor policyholder obligations.

(3) For an insurance holding company that has previously met an exemption with respect to the group capital calculation pursuant to subrule (1) or (2) of this rule, the lead state commissioner may require at any time the ultimate controlling person to file an annual group capital calculation, completed in accordance with the group capital calculation instructions, if any of the following criteria are met:

(a) An insurer within the insurance holding company system is in a risk-based capital action level event, as prescribed by the director in an order issued under section 438 of the act, MCL 500.438, or otherwise prescribed by the director, or a similar standard for a non-United States insurer.

(4) A non-United States jurisdiction is considered to recognize and accept the group capital calculation if it satisfies the following criteria:

(a) With respect to an exemption described under section 1325b(3)(d) of the act, MCL 500.1325b, either of the following:

(i) The non-United States jurisdiction recognizes the United States state regulatory approach to group supervision and group capital, by providing confirmation by a competent regulatory authority, in that jurisdiction, that insurers and insurance groups whose lead state is accredited by the NAIC under the NAIC Accreditation Program are subject only to worldwide prudential insurance group supervision including worldwide group governance, solvency and capital, and reporting, as applicable, by the lead state and shall not be subject to group supervision, including worldwide group governance, solvency and capital, and reporting, at the level of the worldwide parent undertaking of the insurance or reinsurance group by the non-United States jurisdiction.

(ii) Where no United States insurance groups operate in the non-United States jurisdiction, that non-United States jurisdiction indicates formally in writing to the lead state with a copy to the International
Association of Insurance Supervisors that the group capital calculation is an acceptable international capital standard. This serves as the documentation otherwise required in paragraph (i) of this subdivision.

(b) The non-United States jurisdiction provides confirmation by a competent regulatory authority in that jurisdiction that information regarding insurers and their parent, subsidiary, or affiliated entities, if applicable, must be provided to the lead state commissioner in accordance with a memorandum of understanding or similar document between the commissioner and that jurisdiction, including, but not limited to, the International Association of Insurance Supervisors Multilateral Memorandum of Understanding or other multilateral memoranda of understanding coordinated by the NAIC. The commissioner shall determine, in consultation with the NAIC Committee Process, if the requirements of the information sharing agreements are in force.

(5) A list of non-United States jurisdictions that recognize and accept the group capital calculation must be published through the NAIC Committee Process as follows:

(a) A list of jurisdictions that recognize and accept the group capital calculation pursuant to section 1325b(3)(d) of the act, MCL 500.1325b, is published through the NAIC Committee Process to assist the lead state commissioner in determining which insurers shall file an annual group capital calculation. The list must clarify those situations in which a jurisdiction is exempted from filing under section 1325b(3)(d) of the act, MCL 500.1325b. To assist with a determination under section 1325b(4) of the act, MCL 500.1325b, the list must also identify whether a jurisdiction that is exempted under either sections 1325b(3)(c) and (d) of the act, MCL 500.1325b, requires a group capital filing for a United States based insurance group’s operations in that non-United States jurisdiction.

(b) For a non-United States jurisdiction where no United States insurance groups operate, the confirmation provided to meet the requirement of subrule (4)(a)(ii) of this rule serves as support for recommendation to be published as a jurisdiction that recognizes and accepts the group capital calculation through the NAIC Committee Process.

(c) If the lead state commissioner makes a determination pursuant to section 1325b(3)(d) of the act, MCL 500.1325b, that differs from the NAIC List, the lead state commissioner shall provide thoroughly documented justification to the NAIC and other states.

(d) Upon determination by the lead state commissioner that a non-United States jurisdiction no longer meets 1 or more of the requirements to recognize and accept the group capital calculation, the lead state commissioner may provide a recommendation to the NAIC that the non-United States jurisdiction be removed from the list of jurisdictions that recognize and accepts the group capital calculation.

(ii) Surplus as regards policyholders, which is the total capital and surplus, as of the preceding December 31.

(f) A brief statement as to the effect of the proposed dividend upon the insurer’s surplus and the reasonableness of surplus in relation to the insurer’s outstanding liabilities and the adequacy of surplus relative to the insurer’s financial needs.

R 500.91 Adequacy of Surplus.

Rule 21. The factors set forth in sections 403, 436a, 1341, 1342, and 1343 of the act, MCL 500.403, 500.436a, 500.1341, 500.1342, and 500.1343, are not an exhaustive list. In determining the adequacy and reasonableness of an insurer’s surplus, no single factor is necessarily controlling. Instead, the director considers the net effect of all of these factors, plus other factors bearing on the financial condition of the insurer. In comparing the surplus maintained by other insurers, the director considers the extent to which each of these factors varies from company to company, and in determining the quality and liquidity of investments in subsidiaries, the director considers the individual subsidiary and may discount or disallow its valuation to the extent that the individual investments warrant.

Sun Room
2407 N Grand River Ave, Lansing, MI 48906

The Department of Licensing and Regulatory Affairs will hold a public hearing to receive public comments on proposed changes to the Securities rule set.

The proposed rules incorporate model rules adopted by the North American Securities Administrators Association (NASAA) in 2022 and 2023 that extend the validity of qualifications examinations for certain individuals registered under the Michigan Uniform Securities Act (MUSA) if they enroll in a program administered by the Financial Industry Regulatory Authority (FINRA) and/or NASAA, and complete continuing education applicable to their registration categories. The rules would incentivize individuals to maintain their knowledge of industry standards, products, practices, and ethics during their disassociated period through approved and documented continuing education.

The proposed rules will take effect immediately after filing with the Secretary of State. The proposed rules are published on the State of Michigan's website at www.michigan.gov/ARD and in the 4/15/2024 issue of the Michigan Register.
