EXECUTIVE ORDER NO. 263

PROTECTING ACCESS TO REPRODUCTIVE HEALTH CARE SERVICES IN NORTH CAROLINA

WHEREAS, the United States Supreme Court decision in Dobbs v. Jackson Women’s Health Organization overturned almost fifty (50) years of legal precedent regarding the federal right to reproductive health care services; and

WHEREAS, reproductive freedom is still protected in North Carolina and reproductive health care services remain available in North Carolina; and

WHEREAS, the undersigned is committed to protecting reproductive freedom and the right for women to make their own medical decisions in North Carolina; and

WHEREAS, other states have enacted or plan to enact restrictions on reproductive health care access, including restrictions on abortion without exception for cases of rape or incest or when the health of the pregnant person is in danger; and

WHEREAS, those restrictions are forcing people to travel to other states that protect reproductive freedoms, including North Carolina, in order to access essential reproductive health care services; and

WHEREAS, other states may seek to impose criminal or civil penalties on health care workers or entities that provide reproductive health care services; and

WHEREAS, other states may seek to impose criminal or civil penalties on people who travel to North Carolina to access reproductive health care services; and

WHEREAS, North Carolina will serve as an increasingly critical access point for reproductive health care services for people across the Southeast and country; and

WHEREAS, research demonstrates that unnecessary restrictions and bans on reproductive health care rights have harmful consequences on people’s health, safety, and economic stability; and

WHEREAS, unnecessary reproductive health care restrictions disproportionately impact people of color, people with disabilities, people with low incomes, and people who live in rural areas; and

WHEREAS, those who lawfully provide, assist, seek, or obtain reproductive health care services in North Carolina should not be subject to criminal or civil penalties in other states; and

WHEREAS, this Executive Order is not intended to change and does not change North Carolina law, but rather ensures that North Carolinians are afforded the protections and rights provided under North Carolina law; and
WHEREAS, pursuant to Article III of the Constitution of North Carolina and N.C. Gen. Stat. §§ 143A-4 and 143B-4, the Governor is the chief executive officer of the state and is responsible for formulating and administering the policies of the executive branch of state government and ensuring that the laws are faithfully executed; and

WHEREAS, pursuant to N.C. Gen. Stat. § 147-12, the Governor has the authority and duty to supervise the official conduct of all executive and ministerial officers; and

WHEREAS, pursuant to N.C. Gen. Stat. § 15A-726, the Governor has discretionary authority regarding the fulfillment of demands for extradition of individuals charged with crimes in other states.

NOW, THEREFORE, by the authority vested in me as Governor by the Constitution and the laws of the State of North Carolina, IT IS ORDERED:

Section 1. Definitions.

i. “Cabinet Agencies” are those agencies that are part of the Governor’s Office or are headed by members of the Governor’s Cabinet.

ii. “Reproductive health care services” means all medical, surgical, counseling, or referral services relating to the human reproductive system, including, but not limited to, services relating to pregnancy, contraception, or the termination of a pregnancy.

Section 2. Cabinet Agency Coordination to Protect Reproductive Health.

All Cabinet Agencies shall coordinate with each other and pursue opportunities to protect people or entities who are providing, assisting, seeking, or obtaining lawful reproductive health care services in North Carolina.

Section 3. No Assistance from Cabinet Agencies.

To the maximum extent permitted under federal or North Carolina law, and except as required by court order, no Cabinet Agency and no employee, officer, or other person acting on behalf of any Cabinet Agency may provide information or expend or use time, money, facilities, property, equipment, personnel, or other resources in furtherance of any investigation or proceeding that seeks to impose civil or criminal liability or professional sanction upon a person or entity for: (i) the provision of, securing of, receipt of, or any inquiry concerning reproductive health care services that are legal in North Carolina; or (ii) any assistance given to any person or entity that relates to the provision of, securing of, receipt of, or any inquiry concerning reproductive health care services that are legal in North Carolina.

This Section 3 shall not apply to any investigation or proceeding where the conduct that is the subject of potential liability or professional sanction under the investigation or proceeding initiated in or by the other state would be subject to civil or criminal liability or professional sanction under the laws of North Carolina if committed in North Carolina. Notwithstanding the general prohibition of this Section 3, Cabinet Agencies and individuals acting on their behalf may provide information or assistance in connection with such an investigation or proceeding if provided at the written request of the subject of such an investigation or proceeding.

Section 4. Protection Against Extradition.

To the maximum extent permitted under the United States and North Carolina Constitutions, federal and state law, and pursuant to North Carolina General Statute Chapter 15A, Article 37, the undersigned will exercise his discretion to decline requests for the extradition of any person charged with a criminal violation in another state where the violation alleged arises out of the inquiry into, provision of, assistance with, securing of, or receipt of reproductive health care services that are lawful in North Carolina, unless the acts forming the basis of the prosecution of the crime charged would also constitute a criminal offense under North Carolina law.
Section 5. Travel for Pregnant Cabinet Agency Employees.

Cabinet Agencies may not require any pregnant Cabinet Agency employee to travel from North Carolina to a state that has imposed restrictions on access to reproductive health care services if those restrictions do not include an exception for the health of the pregnant Cabinet Agency employee satisfactory to that employee.

Section 6. Protecting Access to and Egress from Reproductive Health Care Facilities.

The North Carolina Department of Public Safety shall work with law enforcement agencies and reproductive health care services facilities to ensure the enforcement of N.C. Gen. Stat. § 14-277.4, which protects access to and egress from health care facilities.

Section 7. Participation of Other State Agencies.

All other state agencies are encouraged to voluntarily adopt the provisions of this Executive Order, or similar provisions.

Section 8. No Private Right of Action.

This Executive Order is not intended to create, and does not create, any individual right, privilege, or benefit, whether substantive or procedural, enforceable at law or in equity by any party against the State of North Carolina, its agencies, departments, political subdivisions, or other entities, or any officers, employees, or agents thereof, or any other person.

Section 9. Savings Clause.

If any provision of this Executive Order or its application to any person or circumstances is held invalid by any court of competent jurisdiction, this invalidity does not affect any other provision or application of this Executive Order, which can be given effect without the invalid provision or application. To achieve this purpose, the provisions of this Executive Order are declared to be severable.

Section 10. Duration and Effective Date.

This Executive Order is effective immediately and shall remain in effect until repealed, replaced, or rescinded by future Executive Order.

IN WITNESS WHEREOF, I have hereunto signed my name and affixed the Great Seal of the State of North Carolina at the Capitol in the City of Raleigh, this 6th day of July in the year of our Lord two thousand and twenty-two.

15A NCAC 07H .1701 PURPOSE

This permit allows work necessary to protect property or prevent further damage to property caused by a sudden or unexpected natural event or structural failure which imminently endangers life or structure. For the purposes of this general permit, major storms such as hurricanes, northeasters, or southwesterners may be considered a sudden unexpected natural event although such storms may be predicted and publicized in advance.

15A NCAC 07H .1702 APPROVAL PROCEDURES

(a) Any person wishing to undertake development in an area of environmental concern necessary to protect life or endangered structures will notify the Division of Coastal Management or Local Permit Office (LPO) when a possible emergency situation exists.

(b) The applicant may qualify for approval of work described in this permit after an onsite inspection by the LPO or Division of Coastal Management Field Consultant and upon his or her findings that the proposed emergency work requires a CAMA or Dredge and Fill permit. The LPO shall issue the permit if the required emergency measures constitute minor development in accordance with G.S. 113A-118.2.

(c) Once the LPO or Consultant determines that the applicant's proposed project may qualify for an emergency permit, he or she shall consult with the applicant and assist him or her in preparing an application. The applicant shall include a sketch showing existing conditions and the proposed work.

(d) The applicant for an emergency permit shall take all reasonable steps to notify adjacent riparian landowners of the application, and prior to receiving a permit will certify by signing the permit the following:

(1) that a copy of the application and sketch has been served on all adjacent riparian landowners, or if service of a copy was not feasible, that the applicant has explained the project to all adjacent riparian landowners;

(2) that the applicant has explained to all adjacent riparian landowners that they have a right to oppose the issuance of a permit by filing objections with the local CAMA permit officer or with the Secretary of the Department of Environmental Quality; and

(3) that, as to adjacent riparian landowners not contacted, the applicant has made a reasonable attempt to contact them and furnish them with the required information.

(e) All work authorized by this general permit will cease after thirty days from the date of issuance.

15A NCAC 07H .1703 PERMIT FEE

The agency shall not charge a fee for permitting work necessary to respond to emergency situations except in the case when a temporary erosion control structure is used. In those cases, the applicant shall pay a permit fee of four hundred dollars ($400.00) by check or money order made payable to the Department.

15A NCAC 07H .1704 GENERAL CONDITIONS

(a) Work permitted by means of an emergency general permit shall be subject to the following limitations:

(1) No work shall begin until an onsite meeting is held with the applicant and a Division of Coastal Management representative so that the scope of the proposed emergency work can be delineated.

(2) No work shall be permitted other than that which is necessary to protect against or reduce the imminent danger caused by the emergency, to restore the damaged property to its condition immediately before the emergency, or to re-establish public facilities or transportation corridors.

(3) Any permitted temporary erosion control projects shall be located no more than 20 feet waterward of the imminently threatened structure or the right-of-way in the case of
roads, except as provided under 15A NCAC 07H .0308. If a building or road is found to be imminently threatened and at increased risk of imminent damage due to site conditions, such as a flat beach profile or accelerated erosion, temporary erosion control structures may be located more than 20 feet waterward of the structure being protected. In cases of increased risk of imminent damage, the location of the temporary erosion control structures shall be determined by the Director of the Division of Coastal Management or the Director's designee.

Fill materials used in conjunction with emergency work for storm or erosion control shall be obtained from an upland source. Excavation below MHW in the Ocean Hazard AEC may be allowed to obtain material to fill sandbags used for emergency protection.

This emergency general permit allows the use of oceanfront erosion control measures for all oceanfront properties without regard to the size of the existing structure on the property or the date of construction.

(b) Individuals shall allow authorized representatives of the Department of Environmental Quality to make inspections to ensure that the activity being performed under authority of this emergency general permit is in accordance with these Rules.

(c) Development shall not jeopardize the use of the waters for navigation or for other public trust rights in public trust areas including estuarine waters.

(d) This permit shall not be applicable to proposed construction where the Department has determined, based on an initial review of the application, that notice and review pursuant to G.S. 113A-119 is necessary because there are unresolved questions concerning the proposed activity's impact on adjoining properties or on water quality, air quality, coastal wetlands, cultural or historic sites, wildlife, fisheries resources, or public trust rights.

(e) This permit does not eliminate the need to obtain any other state, local, or federal authorization.

(f) Development carried out under this permit must be consistent with all local requirements, CAMA rules, and local land use plans, storm hazard mitigation, and post-disaster recovery plans current at the time of authorization.

15A NCAC 07H .1705 SPECIFIC CONDITIONS

(a) Temporary Erosion Control Structures in the Ocean Hazard AEC.

(1) Permittable temporary erosion control structures shall be limited to sandbags placed landward of mean high water and parallel to the shore.

Temporary erosion control structures as defined in Subparagraph (1) of this Paragraph may be used to protect only imminently threatened roads and associated right of ways, and buildings and their associated septic systems. A structure is considered imminently threatened if its foundation, septic system, or right-of-way in the case of roads is less than 20 feet away from the erosion scarp. Buildings and roads located more than 20 feet from the erosion scarp or in areas where there is no obvious erosion scarp may also be found to be imminently threatened when the Division determines that site conditions, such as a flat beach profile or accelerated erosion, increase the risk of imminent damage to the structure.

Temporary erosion control structures shall be used to protect only the principal structure and its associated septic system, but not appurtenances such as pools, gazebos, decks or any amenity that is allowed under 15A NCAC 07H .0309 as an exception to the erosion setback requirement.

Temporary erosion control structures may be placed waterward of a septic system when there is no alternative to relocate it on the same or adjoining lot so that it is landward of or in line with the structure being protected.

Temporary erosion control structures shall not extend more than 20 feet past the sides of the structure to be protected except to align with temporary erosion control structures on adjacent properties, where the Division has determined that gaps between adjacent erosion control structures may result in an increased risk of damage to the structure being protected. The landward side of such temporary erosion control structures shall not be located more than 20 feet waterward of the structure to be protected or the right-of-way in the case of roads. If a building or road is found to be imminently threatened and at increased risk of imminent damage due to site conditions such as a flat beach profile or accelerated erosion, temporary erosion control structures may be located more than 20 feet waterward of the structure being protected. In cases of increased risk of imminent damage, the location of the temporary erosion control structures shall be determined by the Director of the Division of Coastal Management or the Director's designee.

Temporary erosion control structures may remain in place for up to eight years for a building and its associated septic system, or a bridge or a road. The property owner shall be responsible for removal of any portion of the temporary erosion control structure exposed...
above grade within 30 days of the end of the allowable time period.

For purposes of this Rule, a community is considered to be actively pursuing a beach nourishment or an inlet relocation or stabilization project if it:

(A) has an active CAMA permit, where necessary, approving such project;

(B) has been identified by a U.S. Army Corps of Engineers' Beach Nourishment Reconnaissance Study, General Reevaluation Report, Coastal Storm Damage Reduction Study, or an ongoing feasibility study by the U.S. Army Corps of Engineers and a commitment of local or federal money, when necessary; or

(C) has received a favorable economic evaluation report on a federal project; or

(D) is in the planning stages of a project designed by the U.S. Army Corps of Engineers or persons meeting applicable State occupational licensing requirements and initiated by a local government or community with a commitment of local or state funds to construct the project or the identification of the financial resources or funding bases necessary to fund the beach nourishment or inlet relocation or stabilization project.

If beach nourishment, inlet relocation or stabilization is rejected by the sponsoring agency or community, or ceases to be actively planned for a section of shoreline, the time extension is void for that section of beach or community and existing sandbags shall be subject to all applicable time limits set forth in Subparagraph (6) of this Paragraph.

Once a temporary erosion control structure is determined by the Division of Coastal Management to be unnecessary due to relocation or removal of the threatened structure, it shall be removed by the property owner to the maximum extent practicable within 30 days of official notification from the Division of Coastal Management, regardless of the time limit placed on the temporary erosion control structure. If the temporary erosion control structure is determined by the Division of Coastal Management to be unnecessary due to the completion of a storm protection project constructed by the U.S. Army Corps of Engineers, a large scale beach nourishment project, or an inlet relocation or stabilization project, any portion of the temporary erosion control structure exposed above grade shall be removed by the permittee within 30 days of official notification by the Division of Coastal Management regardless of the time limit placed on the temporary erosion control structure.

Removal of temporary erosion control structures is not required if they are covered by sand. Any portion of a temporary erosion control structure that becomes exposed above grade after the expiration of the permitted time period shall be removed by the property owner within 30 days of official notification from the Division of Coastal Management.

The property owner shall be responsible for the removal of remnants of all portions of any damaged temporary erosion control structure.

Sandbags used to construct temporary erosion control structures shall be tan in color and 3 to 5 feet wide and 7 to 15 feet long when measured flat. Base width of the structure shall not exceed 20 feet, and the total height shall not exceed 6 feet, as measured from the bottom of the lowest bag.

Soldier pilings and other types of devices to anchor sandbags shall not be allowed.

Excavation below mean high water in the Ocean Hazard AEC may be allowed to obtain material to fill sandbags used for emergency protection.

An imminently threatened structure may be protected by a temporary erosion control structure only once regardless of ownership, unless the threatened structure is located in a community that is actively pursuing a beach nourishment project, an inlet relocation or stabilization project in accordance with Subparagraph (7) of this Paragraph. Existing temporary erosion control structures may be permitted for additional eight-year periods provided that the structure being protected is still imminently threatened, the temporary erosion control structure is in compliance with requirements of this Subparagraph, and the community in which it is located is actively pursuing a beach nourishment or an inlet relocation or stabilization project in accordance with Subparagraph (7) of this Paragraph. In the case of a building, a temporary erosion control structure may be extended, or new segments constructed, if additional areas of the building become imminently threatened. Where temporary structures are installed or extended incrementally, the time period for removal under Subparagraph (6) or (7) of this Paragraph shall begin at the time the initial erosion control structure is installed. For the purpose of this Rule:

(A) a building and its associated septic system shall be considered as separate structures; and
(B) a road or highway shall be allowed to be incrementally protected as sections become imminently threatened. The time period for removal of each contiguous section of sandbags shall begin at the time that section is installed in accordance with Subparagraph (6) or (7) of this Paragraph.

(15) Existing temporary erosion control structures may be repaired or replaced within their originally permitted dimensions during the time period allowed under Subparagraph (6) or (7) of this Paragraph.

(b) Erosion Control Structures in the Estuarine Shoreline, Estuarine Waters, and Public Trust AECs. Work permitted by this Rule shall be subject to the following limitations:

(1) The erosion control structure shall be located no more than 20 feet waterward of the imminently threatened structure. If a building or road is found to be imminently threatened and at increased risk of imminent damage due to site conditions such as a flat shore profile or accelerated erosion, temporary erosion control structures may be located more than 20 feet waterward of the structure being protected. In cases of increased risk of imminent damage, the location of the temporary erosion control structures shall be determined by the Director of the Division of Coastal Management or the Director's designee in accordance with Subparagraph (a)(1) of this Rule;

(C) any fill materials used in conjunction with emergency work for storm or erosion control shall be obtained from an upland source except that dredging for fill material to protect public facilities or transportation corridors shall be considered in accordance with standards in 15A NCAC 07H .0208; and

(D) all fill materials or structures associated with temporary relocations which are located within Coastal Wetlands, Estuarine Water, or Public Trust AECs shall be removed after the emergency event has ended and the area restored to pre-disturbed conditions.

For temporary structures associated with scientific research, permit applicants shall be lead investigators on behalf of accredited educational institutions, or state or federal agencies.
(b) If a temporary structure is to be located less than 400 feet waterward of normal high water or normal water level, or within the established pier head line as determined by the Division of Coastal Management, the applicant shall provide:
1. a written statement signed by the adjacent riparian property owners indicating that they have no objections to the proposed work; or
2. confirmation that the adjacent riparian property owners have been notified by certified mail of the proposed work. Such notice should instruct adjacent property owners to provide any comments on the proposed development in writing for consideration by permitting officials to the Division of Coastal Management within ten days of receipt of the notice, and indicate that no response will be interpreted as no objection. DCM staff will review all comments and determine, based on their relevance to the potential impacts of the proposed project, if the proposed project can be approved by a General Permit. If DCM determines that the project exceeds the conditions established by this General Permit, DCM shall notify the applicant that a Major Permit application shall be required.

(c) No work shall begin until an onsite meeting is held with the applicant and a Division of Coastal Management representative to inspect and mark the site of construction of the proposed development. Temporary structures authorized by this General Permit may remain in place for a maximum of one year from the date of issuance. 15A NCAC 07H .2501 PURPOSE

Following damage to coastal North Carolina due to hurricanes or tropical storms, the Secretary may, based upon an examination of the extent and severity of the damage, implement any or all provisions of this Section. Factors the Secretary may consider in making this decision include, but are not limited to, severity and scale of property damage, designation of counties as disaster areas, reconnaissance of the impacted areas, or discussions with staff, state, or federal emergency response agencies. This permit shall allow for:

(1) the replacement of structures that were located within the estuarine system or public trust Areas of Environmental Concern and that were destroyed or damaged beyond 50 percent of the structures value as a result of any hurricane or tropical storm;

(2) a one time per property fee waiver for the reconstruction or repair by beach bulldozing of hurricane or tropical storm damaged frontal or primary dune systems; and

(3) a one time per property fee waiver for maintenance dredging activities within existing basins, canals, channels, and ditches. Structure replacement, dune reconstruction, and maintenance excavation activities authorized by this permit shall conform with all current use standards and regulations. The structural replacement component of this general permit shall only be applicable where the structure was in place and serving its intended function at the time of the impacting hurricane or storm, and shall not apply within the Ocean Hazard System of Areas of Environmental Concern (AEC) or waters adjacent to these AECs with the exception of those portions of shoreline that feature characteristics of Estuarine Shorelines. Such features include the presence of wetland vegetation, lower wave energy, and lower erosion rates than in the adjoining Ocean Erodible Area.

(a) This permit shall only become available following a written statement by the Secretary that, based upon hurricane or tropical storm related damage, implementation of the provisions of this Section are warranted.
(b) Based upon an examination of the specific circumstances following a specific hurricane or tropical storm, the Secretary may choose to activate any or all of the components of this Section. The Secretary may also limit the geographic service area of this permit.
(c) This permit authorizes only the replacement of damaged or destroyed structures, the reconstruction of frontal or primary dunes, and maintenance excavation activities conforming to the standards described in this Section.
(d) This permit does not authorize the replacement of any structure within any Ocean Hazard Area of Environmental Concern, with the exception of those portions of shoreline within the Ocean Hazard AEC that feature characteristics of Estuarine Shorelines. Such features include the presence of wetland vegetation, lower wave energy, and lower erosion rates than in the adjoining Ocean Erodible Area.
(e) Individuals shall allow authorized representatives of the Department of Environmental Quality to make inspections at any time in order to be sure that the activity being performed under authority of the general permit set forth in this Section is in accordance with the terms and conditions prescribed herein.
(f) The permit set forth in this Section shall not be applicable to proposed construction where the Department determines that the proposed activity would endanger adjoining properties or significantly affect historic, cultural, scenic, conservation, or recreational values identified in G.S. 113A-102 and G.S 113A-113(b)(4).
(g) This permit does not eliminate the need to obtain any other required State, local, or federal authorization.

(a) The replacement of a damaged or destroyed structure shall take place within the footprint and dimensions that existed immediately prior to the damaging hurricane or tropical storm. No structural enlargement or additions shall be allowed.
(b) Structure replacement, dune reconstruction, and maintenance excavation authorized by this permit shall conform to the existing use standards and regulations for exemptions, minor development permits, and major development permits, including general permits. These use standards include, but are not limited to:

(1) 15A NCAC 07H .0208(b)(6) for the replacement of docks and piers;
(2) 15A NCAC 07H .0208(b)(7) for the replacement of bulkheads and shoreline stabilization measures;
(3) 15A NCAC 07H .0208(b)(9) for the replacement of wooden and riprap groins;
(4) 15A NCAC 07H .1500 for maintenance excavation activities; and

(c) The replacement of an existing dock or pier facility, including associated structures, marsh enhancement breakwaters, or groins shall be set back 15 feet from the adjoining property lines and the riparian access dividing line. The line of division of riparian access shall be established by drawing a line along the channel or deep water in front of the property, then drawing a line perpendicular to the line of the channel so that it intersects with the shore at the point the upland property line meets the water's edge. Application of this Rule may be aided by reference to the approved diagram in 15A NCAC 07H .1205, illustrating the rule as applied to various shoreline configurations. Copies of the diagram may be obtained from the Division of Coastal Management. When shoreline configuration is such that a perpendicular alignment cannot be achieved, the pier shall be aligned to meet the intent of this Rule to the maximum extent practicable. The setback may be waived by written agreement of the adjacent riparian owner(s) or when the two adjoining riparian owners are co-applicants. Should the adjacent property be sold before replacement of the structure begins, the applicant shall obtain a written agreement with the new owner waiving the minimum setback and submit it to the Division of Coastal Management prior to initiating any construction of the structure.

Trainees and appraisers who initially registered with the Board after January 1 of an odd numbered year are not required to obtain continuing education for renewal of their registration in that odd numbered year.

(b) Each trainee, licensee, and certificate holder who is required to obtain continuing education pursuant to Paragraph (a) of this Rule shall complete 28 hours of continuing education before June 1 of every odd numbered year. Except as provided in Paragraphs (g) and (h) of this Rule, such education shall have been obtained by taking courses approved by the Board for continuing education credit, at schools approved by the Board to offer such courses, as set forth in 21 NCAC 57B .0603. Such education shall relate to real estate appraisers maintaining and increasing their skill, knowledge, and competency in real property appraising. There is no exemption from the continuing education requirement for trainees or appraisers whose status has been upgraded to the level of licensed residential, certified residential, or certified general appraiser, since the issuance or most recent renewal of their registration, license, or certificate. Trainees, licensees, and certificate holders shall not take the same continuing education course more than once during the two-year continuing education cycle.

(c) Each appraisal continuing education course shall include a minimum of two classroom hours of instruction on real estate appraisal or related topics, as set forth in the Real Property Appraiser Qualification Criteria as implemented by The Appraisal Foundation’s Appraiser Qualifications Board.

(d) Each trainee, licensee, and certificate holder who is required to obtain continuing education pursuant to Paragraph (a) of this Rule shall, as part of the 28 hours of continuing education required in Paragraph (b) of this Rule, complete the seven hour National USPAP update course between October 1 of an odd-numbered year and June 1 of an even numbered year, as required by the Appraiser Qualifications Board of the Appraisal Foundation. Each trainee, licensee, and certificate holder shall take the most recent USPAP update course prior to June 1 of every even numbered year.

(e) A trainee, licensee, or certificate holder who completes approved continuing education courses in excess of the requirement shall not carry over into the subsequent years any continuing education credit.

In addition, course sponsors shall send to the Board a roster of all who completed the course. This roster shall be sent within 15 days of completion of the course. In order to renew a registration, license, or certificate in a timely manner, the Board shall receive proof of satisfaction of the continuing education requirement prior to processing a registration, license, or certificate renewal application. Proof of satisfaction shall be made by receipt of a roster from a school or course sponsor showing the courses completed by the applicant or by submission of an original certificate of course completion. continuing education requirement is not provided, the registration, license, or certificate shall expire and the trainee, licensee, or certificate holder shall be subject to the provisions of Rules .0203(e) and .0206 of this Section.

(g) A current or former trainee, licensee, or certificate holder may request that the Board grant continuing education credit for a course that has been completed but is not approved by the Board, or for appraisal education activity equivalent to a Board approved course, by making such request and submitting a non-refundable fee of fifty dollars ($50.00) as set out in G.S. 93E-1-8(d) for each course or type of appraisal education activity to be evaluated. Continuing education credit for a non-approved course shall be granted only if the trainee, licensee, or certificate holder provides proof of course completion and the Board finds that the course satisfies the requirements for approval of appraisal continuing education courses with regard to subject matter, course length, instructor qualifications, and student attendance, as set forth in 21 NCAC 57B .0603. Appraisal education activities for which credit may be awarded include teaching appraisal courses, authorship of appraisal textbooks, and development of instructional materials on appraisal subjects. Up to 14 hours of continuing education credit may be granted in each continuing education cycle for participation in appraisal education activities. Trainees, licensed or certified appraisers who have taught an appraisal course approved by the Board for continuing education credit are deemed to have taken an equivalent course and are not subject to the fee prescribed in G.S. 93E-1-8(d), provided they submit verification of having taught the course(s). A trainee, licensee, or certificate holder who teaches a Board approved continuing education course shall not receive continuing education credit for the same course more than once every two years, regardless of how often he or she teaches the course. Requests for equivalent approval for continuing education credit shall be received before June 15 of an odd-numbered year to be credited towards the continuing education requirement for that odd-numbered year.

(h) A trainee, licensee, or certificate holder may receive continuing education credit by taking any of the Board approved precertification courses, other than Basic Appraisal Principles and Basic Appraisal Procedures, or their approved equivalents. Trainees, licensees, and certificate holders who wish to use a precertification course for continuing education credit shall comply with the provisions of 21 NCAC 57B .0604.

(i) A licensee or certificate holder who resides in another state, and is currently credentialed in another state, may satisfy the continuing education requirements by submitting an affidavit which lists the course provider, title, hours, and date of completion of all continuing education completed within the current continuing education cycle. The Board will audit no less than ten percent of licensees who renew with an affidavit. A licensee or certificate holder who became licensed in North Carolina by licensure or certification with another state and now resides in North Carolina may renew by affidavit for his or her first renewal as a resident of North Carolina only if the appraiser moved to North Carolina on or after January 1 of an odd-numbered year. If an appraiser was a resident of this state before January 1 of an odd-numbered year, the appraiser shall comply with the requirements of this section regardless of how the license or certificate was obtained.

(j) A trainee, licensee, or certificate holder who returns from active military duty on or after February 1 of an odd-numbered year may renew his or her registration, license, or certificate in that odd-numbered year even if the required continuing education is not completed before June 1 of that year. All required continuing education shall be completed within 180 days of when the trainee, licensee, or certificate holder returns from active duty. The Board may revoke the registration, license, or certificate in accordance with 93E-1-12 if the required continuing education is not completed within 180 days.
