

EMBEDDING

Embedded Questions mean indirect questions which are used inside direct questions or inside statements.

Examples:

Embedded question (A question inside a question)

Where is Ali?	Do you know where Ali is ?
What is Ali doing?	Can you tell what Ali is doing ?
When will Ali arrive?	I'm not sure when Ali will arrive.

Embedded question with (what, why, where, who, how, when)

Direct question	Embedded question
How can I fix this?	Could you show me how to fix this ? Could you show me how I can fix this ?
Why should you go?	I wonder why you should go.

Embedded question with (yes/no) questions using {if or whether }

Direct question	Embedded question
Is Ali at home?	I don't know if Ali is at home.
Have they finished their course?	Can you tell us whether they have finished their course.
