## Overall Discussion Questions

Work in pairs to answer the following questions and be prepared to share your answers with the rest of the class.

1. What is the difference between renewable and non-renewable energy?
2. What is the relationship between energy and climate change?
3. How does our personal behaviour affect energy use in this province?

4. Who is someone you know who is interested in saving energy?
5. How can we use the Internet to convince people to change their behaviour?
6. When we want to influence politicians, why are individual cards or letters more effective than other approaches, such as online petitions?
7. Is it important to conserve energy and develop renewable sources of energy? Why?
