Welcome

***GreyCampus is a
leading certification
training provider for
professionals globally***

As a PMI Registered Education Training Provider (REP ID: 3871) with the Premier Authorized Training Partner (ATP) status, we have worked with organizations to train thousands of project management professionals

www.greycampus.com

Global Training Program

We have helped over 150,000 individuals improve their skills so they can aim for better career goals and achieve success. This is made possible by providing training, to individuals and corporations alike, from industry veteran, certified instructors on our cutting-edge learning platform that incorporates learning aids, study plans, program progress markers and other impactful teaching techniques.

We are now a Premier PMI Authorized Training Partner, in addition to being a Registered Education Training Provider (ID: 3871).

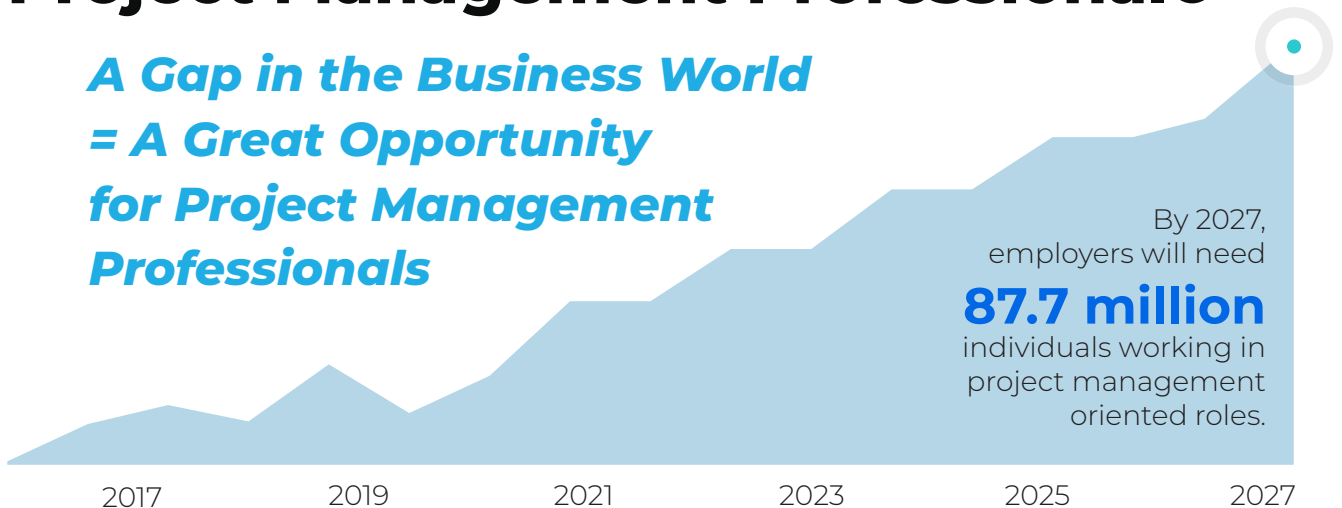

We've trained professionals from

Project Management Professional®

***A Gap in the Business World
= A Great Opportunity
for Project Management
Professionals***

There are several catalysts for the gap:

- By 2027, employers will need 87.7 million individuals to work in project management roles.
- A PMP-certified project manager earns 23% more on average.

Bridging the Gap While Helping Project Management Professionals Advance Their Careers

GreyCampus' PMP Certification Program is designed to bridge this gap by making the training more available to individuals so organizations worldwide can have access to more qualified project management professionals.

Meanwhile, our students can obtain the necessary qualification to advance their careers, take on more challenging projects, and boost their salaries.

This 4-day instructor-led intensive program conducted online, is up-to-date with the new exam pattern changes brought into effect by PMI from the 2nd of January, 2021.

Crack The PMP® Examination **With Ease!**

Want to enhance your professional marketability? Grease the wheels of your project management knowledge and earn a globally recognized certification with GreyCampus' new PMP® training program.

Become an insider as you explore project management tricks and tweak your learning with this PMBOK® Guide-aligned program. Master the essential concepts and level up your game fast with immersive learning experiences, simulated exams, live bootcamps, and ITTO tools.

Become the catapult to your success. Accomplish what is gold standard for project management professionals.

Program Overview!

- Attain wall-to-wall knowledge with the 4-day intensive bootcamp.
- Gain insight into the test-taking strategies to ace the PMP exam with the help of mentorship sessions.
- Create an ironclad strategy for success with simulated full-length PMP exams.
- Pace your preparation time, and efforts effectively with our unique study plan.

Learning Experience

Study Plan:

At the onset of your program, you'll get access to a study plan to help you map out your preparation journey across the set of topics, content, and other learning aids available to you. Furthermore, we have added tutorial videos and gamified learning modules so that you can solidify project management knowledge.

Live Bootcamp:

The live (online) bootcamps in this program leverage what you are learning from the self-paced courseware and build on it to help you get even more comfortable with the PMP exam topics. You will also receive cheat sheets (downloadable, of course) and workbooks that help you to solve problems at ease and improve performance.

Simulated exams:

With this program, you will get exclusive access to simulated exams that follow the same pattern of questioning and difficulty of the PMP® Examination. These exams help you to be familiar with the actual test and possess the necessary knowledge and skills. We provide detailed exam analytics during the program, which aids you in spotting your weaknesses beforehand. This would enable you to get maximum scores in the main examination.

Mentorship:

The high-impact mentorship program gives you access to interactive exam-solving sessions. These sessions pave the path for you to learn stupid-simple tricks for solving difficult questions during the PMP® exam. In addition, you will receive expert assistance with the exam application process as well.

Certification:

Apart from the official PMP® certification from the Project Management Institute, you'll receive Course Completion Certificate from GreyCampus. Adding these certificates to your CV will help you to accelerate your career track.

Support System:

During the course of the program, you will have access to the dedicated instructor helpline that answers any subject-related queries that you might have. For other queries, you can always reach out to our customer support team available 24 x 7.

Do you really need a PMP certification?

Offered by the Project Management Institute, the PMP® (Project Management Professional) certification is a globally recognized credential for project managers across industries. This program transforms your understanding of project management framework, processes, and tools. Project management professionals including team leads, project engineers, and project managers increase credibility and raise market value with this program.

The PMP® certification helps you to:

- **Increase Credibility:** The PMP® certification testifies your project management knowledge and skills. It helps you to be more desirable to your employers who look for specific skills.
- **Earn 25% More:** According to a study published by the Project Management Institute, professionals with the PMP® certification earn up to 25% more than the non-certified project management professionals.
- **Get 23% Higher Median Salary:** According to the Project Management Salary Survey conducted by the PMI, PMP-certified professionals earn a 23% higher median salary than non-PMP certified professionals.

Our Course **Advisor**

Joseph Keim

Joe has worked for various organizations over the past 40 years including a decade long stint in the US Navy. He comes to GreyCampus, with over 30 years of project management, and process improvement experience.

He is part of the Continuing Education teaching staff at Colorado State University as an adjunct instructor for the Project Management Certification Program. Joe has also spearheaded several PMP and Lean Six Sigma bootcamps.

He is the Technical Editor for George Angel's: "PMP Certification: A Beginner's Guide".

Also, Joe has created, along with Grey Campus, their new PMP certification program.

Did you know?

- Unlike many PMP exam prep books and PMBOK guide, GreyCampus PMP® training program covers key aspects of each management process, tool, and technique in detail. This prepares you to answer every question in the PMP® certification exam.
- GreyCampus ensures that you have the best of the best trainers in the industry. Our trainers aren't just PMP-certified. They have also taken up the requisite training on the updated PMP curriculum by PMI itself as a part of our teaching standards as a premier ATP.

Group Training Solutions

Group Training Customized for Your Organization

Our customized group training program helps organizations become more efficient and profitable by improving productivity, communication, execution, and risk management.

Our unique program combines our project management expertise with intelligent business solutions. We train your entire team to create a culture focused on efficiency and success:

- **Team building:** Training as a group enhances buy-in among employees.
- **Focused training:** Our instructors illustrate how the theories apply to your organization's unique circumstances.
- **Convenience:** Training conducted on location minimizes disruption to the day-to-day operation of your business.
- **Cost-effectiveness:** On-site training eliminates travel cost while allowing you to take advantage of our group discount.
- **Customized schedule:** Tailor the training schedule to suit your company's needs.

Testimonials

Mathew Haiden, Chief Project Manager

This was my first stop at GreyCampus. Very impressed to see how they integrated immersive learning modules in alignment with PMBOK guide. Their mentorship sessions with PMP certified instructors and instructor helpline are truly unique. The customer support team also assisted in the blink of an eye.

Lucie P, Engineering Lead

Greycampus administrative support is amazing and the classroom training was great. they provide mock-up exams and online study material. The PMP book was included in the package and can also be provided as soft copy. While videos of the classroom are provided, the teacher used for the videos is not the same as the classroom teacher and I must say, the online version is very slow and sounds boring. What can be improved are definitely the online videos! Overall this has completely fulfilled my expectations. Weng Yuen Chew, Senior Marketing Executive

GreyCampus provides excellent study material and mock exams to assist me in my preparation for the PMP certification exam. The training instructor was knowledgeable and their staff was extremely helpful throughout my journey in obtaining my PMP certification.

Sankha Roy, Senior Product Manager

GreyCampus course materials and teaching staff were both excellent. My assessment of the tutor was:

- Highly knowledgeable
- Sincere and dedicated to share the knowledge
- Helpful and eager to find the gaps from students
- Patient to listen the problem of student
- Perfect professional

I would recommend my friends to go through GreyCampus for PMP preparation for the exam. The key thing which I learnt about PMBOK Version 6.0 is the main book. The tutor went through all important knowledge and process areas and highlighted where we need to keep focus.
