## Wellsite Geologist Resume

---

### Job Objective

Seeking a Wellsite Geologist position in an organization where I can utilize my skills and be an asset to the employer.

---

### Highlights of Qualifications:

---

- Extensive experience of well site identification, evaluation, modeling and drilling
  - Sound knowledge of geological well site operations, geo-steering and coordination activities
  - Commendable knowledge of lithology, formation fluid and borehole effects
  - Familiarity with Gravitas software, drilling operations and well log interpretation
  - Ability to prepare daily reports and complete lithological descriptions
  - Ability to interact with drilling, logging and engineering teams, in a positive manner
- 

### Professional Experience:

---

Wellsite Geologist  
RPS Group, East Rochester, NY  
August 2012 – Present

---

### Responsibilities:

---

- Gathered, documented, and analyzed a variety of well site related information.
  - Evaluated and Interpreted rock cuttings and field samples to determine presence and composition of natural resource reserves.
  - Identified and located reservoir sites and constructed well lithologies.
  - Prepared, reviewed, correlated, and submitted drilling log reports.
  - Informed and guided directional driller, petrophysicist, and drilling engineer about location of the drill bit and surrounding rocks.
  - Developed and maintained positive relationships with clients, drilling crew and vendors.
- 

Wellsite Geologist  
Midstates Petroleum Company, Inc., East Rochester, NY  
May 2009 – July 2012

---

### Responsibilities:

---

- Determined, developed, and evaluated geological wells, as required.
  - Measured, described, and assessed formations during drilling activities.
  - Gathered, analyzed, and interpreted well site data, correlation logs, and geological maps.
  - Tracked and reported on pore pressures, shallow formation, and reservoir risks.
  - Provided technical advice to operations personnel and reviewed offshore operations.
  - Prepared and provided work-related records, reports, and log information.
- 

### Education:

---

Bachelor's Degree in Geology  
Columbia Union College, Takoma Park, MD
