Senior Developer / Push Crank Press

September 2017 - Present, Dothan, AL

Successfully delivered three large-scale e-commerce projects, requiring the creation of custom-coded APIs and web tools. Developed innovative solutions for inventory management, customer account handling, and database management, enhancing operational efficiency and customer experience.

Developed 20+ WordPress sites with custom UI while leveraging Advanced Custom Fields to create dynamic content, significantly improving the manageability of webpages for clients and enhancing their ability to keep content fresh and engaging.

Maintained and managed over 100 websites via the Zendesk support system, ensuring optimal performance, timely updates, and minimal downtime.

Collaborated with team members including developers, designers, and project managers to help deliver high quality products to clients.

Developed and maintained responsive websites and web applications using HTML5, CSS3, JavaScript, PHP, and SQL.

Web Developer / Marketing Services

August 2014 - May 2017, Dothan, AL

Utilized pre-built WordPress themes to rapidly construct functional, aesthetically pleasing websites for a diverse range of clients.

Customized WordPress themes to align with client branding and design preferences, ensuring unique, tailored web presences.

Regularly updated and maintained client websites to ensure their ongoing functionality, security, and relevance.
