

Lesson 22 – Worksheet (Fingerpicking Introduction)

Finger Picking Introduction

Before you tackle the exercises listed below, make sure you watched the video lesson and you conceptually fully understand the two basic finger picking techniques I demonstrated. Please practice each of the listed exercises by using both, the regular finger picking and after that, also the slightly advanced technique:

Exercises:

1. Play the following chord progression. Practice both fingerpicking patterns that I explained in the video lesson.

4 x A-Minor – 4 x C-Major – 4 x D-Major – 4 x F-Majorand over.

2. Play the following chord progression. Practice both fingerpicking patterns that I explained in the video lesson.

4 x A-Major 7 – 4 x E-Major 7 – 4 x C-Major – 4 x E-Minor

3. Play the following chord progression. Practice both fingerpicking patterns that I explained in the video lesson.

1 x A-Minor – 1 x C-Major – 1 x D-Major – 1 x F-Major

4. Now, for this last exercise, I want you to come up with your own chord progression. Play any chords you would like. Write them down and practice both picking techniques by playing those chords.
