

Hack K-State

2018 Prospectus

October 19 - 21, 2018

K-State College of Business Administration

Hack K-State 2018

About Hack K-State

Founded in 2016, Hack K-State is one of the few hackathons in North America that brings high school and college students together for 36 hours of networking, learning, and fun. Hack K-State is an "invention marathon". Students show up Friday night, dream up a crazy website, mobile app, or robot, build it over the weekend, and then get to show it off to their peers and win prizes. Anyone who has an interest in technology is encouraged to come and learn something new in a welcoming and relaxed atmosphere.

Why sponsor?

Being the largest collegiate hackathon in Kansas, Hack K-State attracts some of the best high school and college students from around the midwest. With an average of over 100 attendees, your company has the unique opportunity to network and interact with active and motivated engineers, designers, and technology enthusiasts.

2017 in Numbers

150 Hackers

150 students from around the nation gathered in Manhattan, KS on November 3, 2017.
