Webinar Agenda

Agenda Day One: Wednesday, November 16, 2022

1:00 - 4:20 pm CST (including two 10-min. breaks)

- Benefits and realities of using native plants in the managed landscape
- Best practices for informed native plant selection and plant sourcing
- Commercial native plant propagation practices and genetic diversity
- Referencing ecoregions and plant communities and using local ecotypes
- Pros and cons of native species plants vs. native cultivars ("nativars")
- Plant reproduction requirements (monoecious, dioecious, self-fertile, self-infertile)
- Benefits and trade-offs of different plant formats (seeds, plugs, pots, B&B)

Agenda Day Two: Thursday, November 17, 2022

1:00 - 4:20 pm CST (including two 10-min. breaks)

- Using aggressive natives in the landscape (stoniferous, rhizomatous, prolific reseeder)
- Emulating natural ecosystems in the managed landscape
- Plant considerations for wildlife and improved ecosystem health
- Setting goals for biodiversity and genetic diversity
- Establishing and maintaining native landscapes – dos and don'ts
- Shaping and managing client expectations
- Using cues to care in managed native landscapes

Presented by

Kim Eierman is the founder of EcoBeneficial LLC. She is an environmental horticulturist and ecological landscape designer specializing in native plants. Based in New York, Ms. Eierman teaches at the New York Botanical Garden, Brooklyn Botanic Garden, The Native Plant Center, school and several other institutions. She is an active speaker nationwide on many ecological landscape topics. Ms. Eierman also provides horticultural consulting and landscape design services to landscape architects and designers, homeowners, municipalities, and commercial clients. In addition to being a certified horticulturist through the American Society for Horticultural Science, she is an accredited organic landscape professional, a steering committee member of The Native Plant Center, and a member of The Ecological Landscape Alliance and Garden Communicators International. Ms. Eierman is the author of the book, *The Pollinator Victory Garden: Win the War on Pollinator Decline with Ecological Gardening*.

Tuition

\$319 for individual registration

\$289 for two or more registrants from the same company at the same time.

Included with your registration: PDF seminar manual.

Credit Information

This webinar is open to the public and is designed to qualify for 6.0 PDHs for professional engineers, 6.0 HSW continuing education hours for licensed architects, and 6.0 HSW continuing education hours for landscape architects in all states that allow this learning method. Please refer to specific state rules to determine eligibility.

HalfMoon Education is an approved continuing education sponsor for engineers in Florida (Provider No. 0004647), Indiana (License No. CE21700059), Maryland, New Jersey (Approval No. 24GP00000700) and North Carolina (S-0130). HalfMoon Education is deemed an approved continuing education sponsor for New York engineers and architects via its registration with the American Institute of Architects Continuing Education System (Regulations of the Commissioner §68.14(i)(2) and §69.6(i)(2)). Other states do not preapprove continuing education providers or courses.

The American Institute of Architects Continuing Education System has approved this course for 6.0 LU/HSW (Sponsor No. J885). Only full participation is reportable to the AIA/CES.

The Landscape Architecture Continuing Education System has approved this course for 6.0 HSW PDHs. Only full participation is reportable to the LA CES.

Attendance will be monitored, and attendance certificates will be available after the webinar for those who attend the entire course and score a minimum 80% on the quiz that follows the course (multiple attempts allowed).
