

GROOVE AGENT₅

SALES GUIDE

IT'S ALL ABOUT THE GROOVE

The new Groove Agent 5 is an impressive drummer — always in time, finds the right feeling immediately and can switch fluently between different styles. Songwriters will love the brand-new very organic sounding acoustic drum kit including 20 exclusively mixed and produced presets with fitting MIDI grooves. Modern beat producers will go crazy about 30 new electronic kits for EDM, Trap, Future Bass and lots more — created by an international production team by artists like Rawtekk. All that comes in a new resizable user interface added by fresh sound design features like the decomposing of samples in tonal and noise parts.

High-class acoustic drums
and percussion sets

30 new electronic drum kits for
Trap, EDM, Future Bass and more

Decompose samples to create
your own signature drum sound

Tons of MIDI grooves for
different genres

THE KIT

New acoustic drums

The Kit is one of the greatest and most detailed acoustic drum kits that has ever found its way into Groove Agent. It was recorded in Teldex Studios Berlin with high-class microphones in lots of articulations, such as a snare with a towel on the drum head.

- 1x 22" kickdrum from Pearl with 4 different beaters
- 1x 14" snare drum with 3 different setups
- 4x Yamaha Maple Custom Toms (8", 10", 12", 14")
- 3x crashes (15", 17" 18")
- 1x 17" china
- 1x 8" Paiste splash (with additional splash choked articulation)
- 2x ride (21" heavy & 20" light)
- 1x hihat
- 1x stick click (for count ins etc.)
- Up to 20 velocities per instrument
- 5 round robins per instrument

NEW KITS FOR EDM, TRAP, FUTURE BASS

30 new Beat Agent kits

All new kits are created by top electronic artists like Rawtekk, zKlang and other young and hungry producers. Beat Agent kits now are not only including beat patterns but also samples like basses, small melody parts or noises.

NEW RESIZABLE USER INTERFACE

Free resizable user interface

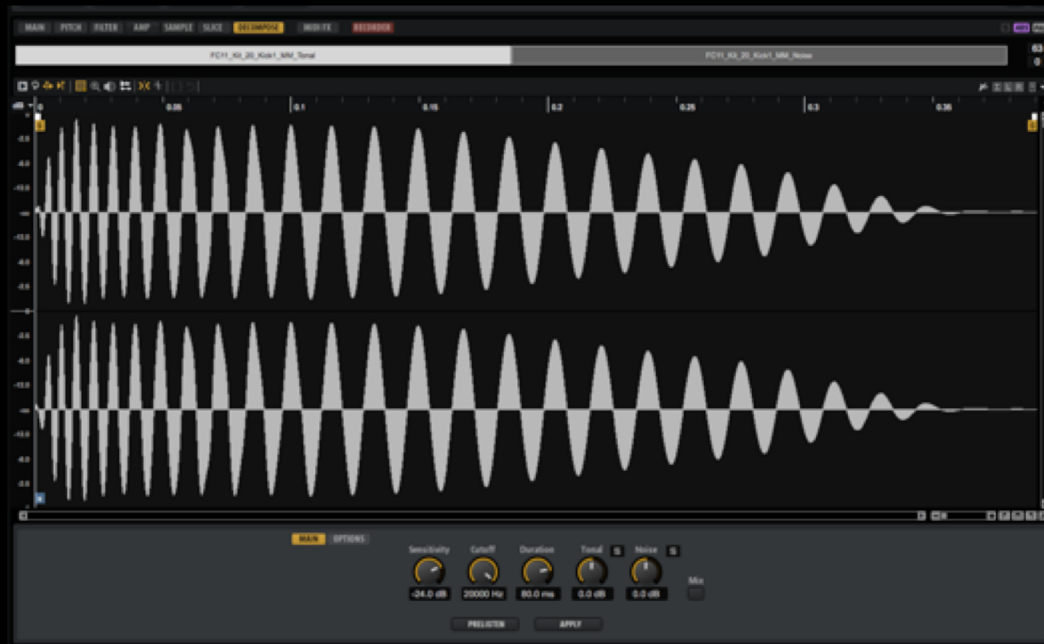

HiDPI support

Undock and resize browser

SOUND DESIGN WITH DECOMPOSE

DECOMPOSE SAMPLES

A sound designer's dream: load a sample and separate it easily into the tonal and the noise part. After that you can easily drag and drop each part on pads of Groove Agent and layer your drums.
