

Minstrel 2.0 Sales Technical sheet

Winner of Best in Show Summer NAMM 2018!

The Minstrel 2.0 has **10** new innovation product design upgrades

1. Now comes with a **rugged carry bag**

The Tripod 2.0 has 3 significant upgrades:

2. **Bigger tubes** from top to bottom for greater stability.
3. "Superior Pro Clutch" – This superior design utilizes a dual wedge mechanism that grabs the tube section from two sides and secures it firmly with a strip-resistant, easy-secure thumb screw fastener

4. **Superior tube stops** – give more stability when tube sections are extended.

The Desk itself has **5 design upgrades**.

5. The Desk Material is a **Thicker reinforced Aluminum**, making it **2lbs lighter** than the previous model, and **super bend-resistant**.
6. **New sleek design rear bracket**.
7. **New Ergonomic thumb screw** for convenient tension adjustment.
8. **Thicker Reinforced desk leg**.
9. **Hi tech scratch resistant paint**.
10. **New Heavy-duty Display Boxes** We've upgraded the Display boxes with: A. thicker cardboard, B. Lock-tuck end panels that secure without tape, C. Beautiful graphics with a rear panel designated to show all of the product selling features.

Description

The Portastand **Minstrel 2.0** is that sibling, and it's been hitting the gym. It limbos with the best of 'em, reaching mere feet off the floor for the seated player. It hops like a champ, extending to full face level for the standing musician. Its tripod features our all-new **Superior Pro Clutch** design. With our signature all-metal powder-coated construction, no plastic parts, and an almost unsettling bench-pressing ability, the Minstrel can fold flat and lift the most brick-like of laptops, tablets, or music scores with the strength of your little brother after that horrifying mid-'90s growth spurt—then fold up in an instant and disappear into the nearest closet, so Mom will probably blame you for the whole thing anyway. Not that we're compensating for our difficult childhoods or anything.

INCLUDES:

- Minstrel all-metal desktop & tripod
- Rugged carry bag
- Removable shoulder strap
- E-Z secure straps for super-fast breakdown
- An insatiable will to travel
