Sibelius® 7

The fastest, smartest, easiest way to write music

The latest generation of the world's best-selling music notation software, Avid® Sibelius® 7 is sophisticated enough to meet the demands of top composers, arrangers, and publishers, yet simple enough for beginners and students. Work quickly with the brand-new, task-oriented user interface. Experience your scores in stunning clarity with the exclusive, professional-quality sound library. Collaborate more easily thanks to full MusicXML interchange support and other sharing options. And view beautiful, print-quality scores with advanced typography and graphics support. Designed by musicians for musicians, Sibelius 7 is the fastest, smartest, easiest way to write music. You can even take your scores on the go with the Avid Scorch® app for iPad.

New in Sibelius 7

Task-oriented user interface

The brand-new Sibelius 7 user interface provides task-focused tabs that lead you through the process of creating a score from start to finish. Every feature has both an icon and a text description—with full contextual help available when you need it.

Professional sound library—only in Sibelius

You finesse every detail of your score—you want to hear every nuance during playback. Sibelius 7 includes more than 38 GB of professional content, including a specially recorded symphony orchestra, rock and pop instruments, and much more.

Native 64-bit support—only in Sibelius

Sibelius 7 is the world's first 64-bit notation software, enabling you to unlock the full power of your 64-bit system—and work more quickly, with more virtual instruments and effects, than ever before.

Optimized for single monitor use—only in Sibelius

We understand that many of our customers favor laptops or other single-display systems. That's why we designed the Sibelius 7 interface to allow you to focus on the music at all times—and easily hide information that you only need to see occasionally.

Switch to Sibelius from Finale

There's never been a better time to switch from Finale® to Sibelius. Sibelius now features a step-time note input method that is very similar to Finale software's Speedy Entry method—right down to using many of the same keystrokes. So if you know how to input notes in Finale, you know Sibelius too. And because today's workflows include a wide variety of software applications, Sibelius 7 now includes full MusicXML export capability, so you can exchange files with hundreds of other applications, including Finale.

Text and typography enhancements

Take advantage of the latest OpenType fonts, including advanced features like ligatures, and employ them in text frames with full Desktop Publishing (DTP) -level capabilities. There's no need to export projects to a separate DTP application—now you can complete many of them within Sibelius 7.

Graphics import and export

Sibelius 7 makes it easy to import graphics in all major formats, then manipulate them to build complex layouts for publishing, creating teaching materials, instructional books, and more. You can export the full score as publication-quality graphics in PDF format, plus individual pages or smaller sections in EPS, PNG, and SVG formats.

Included support and special pricing

Your Sibelius 7 purchase includes peace of mind—you get 90 days of complimentary assisted support, plus a variety of affordable annual support options. There's also special academic and student pricing—and the latter includes four years of free upgrades, so students can stay up to date throughout their studies.

Sibelius 7—The fastest, smartest, easiest way to write music

Features and Benefits

- Task-oriented user interface—easily progress through all the step of creating a score

- Professional-quality, 38 GB sound library*—enjoy ultra-realistic playback

- Text and typography enhancements—take advantage of the latest OpenType fonts

- Graphics import and export—build complex layouts for publishing, creating teaching materials, and more

- Included support and special pricing for education—buy with peace of mind
    Only in Sibelius.

Minimum System Requirements

Sibelius software only

Windows:

- Windows Vista (SP2 with Platform Update Pack or later), Windows 7 SP1 or later

- 1 GB+ RAM

- 750 MB hard disk space

- DVD-ROM drive

Mac:

- Mac OS X 10.6.7 or later, Mac OS X 10.7

- 1 GB+ RAM

- 750 MB hard disk space

- DVD-ROM drive

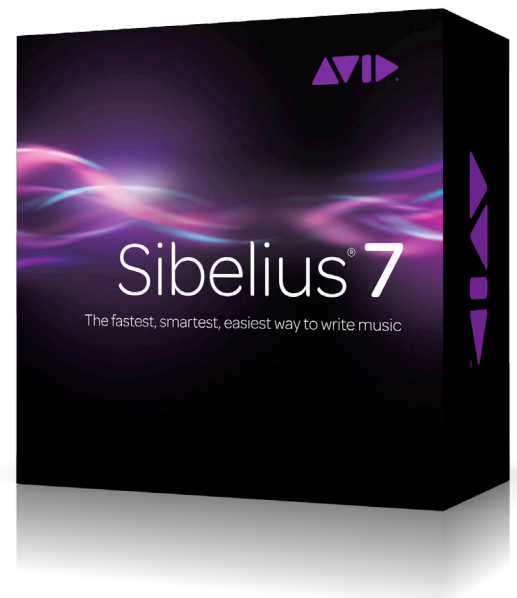

Recommended for Sibelius 7 Sounds sample library*

Windows:

- Intel Core 2 Duo (or equivalent) or better

- 4 GB+ total physical RAM

- 40 GB total hard disk space (7200 rpm or faster drive recommended; SSD preferable)

- ASIO-compatible soundcard

Mac:

- Intel Core 2 Duo or better

- 4 GB+ total physical RAM

- 40 GB total hard disk space (7200 rpm or faster drive recommended; SSD preferable)

You can use Sibelius 7 Sounds if your computer doesn't meet the recommended requirements, but you may find that you cannot use as many sounds simultaneously, and that sounds take a long time to load.
