### SURFACE MOUNTED LED FIXTURES

### RESHAPING THE FUTURE OF PROFESSIONAL LIGHTING

The Blink Pro+ line raises the bar for professional lighting with its sleek design and advanced technology. As part of the sophisticated driver platform, Blink Pro+ features advanced line conditioners and EMI filters to ensure even light distribution and smooth dimming. With a contemporary yet familiar aesthetic, Blink Pro+ is a versatile solution suitable for a wide range of environments. Available in various shapes and sizes, Blink Pro+ sets the standard in professional lighting. The chamfered bezel edge adds a touch of elegance and seamlessly melds with any surface, creating a sleek and low profile look.

### THE DIFFERENCE IS IN THE DRIVER

While some DOB (driver on board) flush mount fixtures may be an option, many don't offer the same level of performance, efficiency, and longevity as an external driver.

Blink's external drivers boast advanced componentry that better regulate the electricity flowing to the LED Chips, preventing electrical interference, overloading, and overheating. This extends the lifespan of our fixtures, setting them apart from DOB products that tend to experience premature driver failure and flickering due to inadequate filtering componentry. Furthermore, our external drivers are designed to match the precise needs of our LED fixtures, resulting in superior efficiency. Plus, the added componentry delivers improved dimming capabilities, which simply isn't possible to achieve with DOB designs due to limited spaces.

### **DRIVER FEATURES**

# MOUNTING BRACKETS FOR SIMPLE INSTALLATION

The inclusion of a removable mounting bracket for all models simplifies the mounting procedure, allowing for quick and hassle-free installation. The fixture retaining clips effortlessly slide and lock into place on the mounting plates, ensuring a secure and solid fit. This design facilitates easy mounting and removal while maintaining a tight connection. The end result is a clean and seamless appearance with no unsightly gaps between the fixture and the ceiling.
