Start Exploring

Start by imagining your ideal future, your ideal lifestyle. Then use CareerZone’s Make Money Choices to see how much money you’ll need to earn to live the lifestyle you dream about. A *lifestyle* is the way a person lives according to their preferences and values.

You’ll select from a list of options in a series of categories.

Your selections create your lifestyle and they create a budget.

Make Money Choices uses your budget to create a list of occupations that earn the salary you’ll need to have the lifestyle you want.

Choose Your Lifestyle: Budget How Much Money You’ll Need

Step 1: Go to the [California CareerZone](https://www.cacareerzone.org) website (https://www.cacareerzone.org)

- (1) **Sign** in to your account. (If you don’t have an account, create one.)
- (2) **Select** the “I Want to” button on your CareerHub homepage.
- (3) **Select** “Make Money Choices” in the popup window.
- (4) **Select** “Choosing Your Lifestyle: Budget How Much Money You’ll Need”.

Step 2: Select a California county where you think you’d like to live or currently live.

Living costs vary a lot throughout the state. To help you choose where to live, think about things you’ll want near you as an adult. Things like entertainment, the outdoors, sports, theaters, museums.

Step 3: Start making your choices. Every time you make a choice, the cost is added to the “Monthly Cost” box.

If you know how much something will cost, you can put that amount in the “Monthly Cost” box—type over any number that’s in the box. When you’re ready, select the “Next Section” button.

The summary at the bottom of your screen tracks your progress.

Use the “Track Your Lifestyle Choices” table on the next page to write down your choices and monthly costs.

Write down your choices and costs.
