

## **My #1 Secret to Healthy Glowing Skin**

Hi, Dr. Susanne here again and thank you for following me throughout this entire “skin secrets” mini-series!

We’ve had thousands of people like you come along in this little journey as we’ve discussed all kinds of tips and tricks for getting healthy, beautiful skin you love!

In this video, I’m going to share with you my #1, most important secret to healthy, glowing skin

This secret has been the key to me looking younger TODAY than I did 10 years ago...

And it’s the most important thing to do if you want to minimize or prevent skin issues ranging from acne scars to wrinkles and signs of aging... or even healing sunburns like I showed in the first video!

Before I tell you what it is, I just want to do a quick recap and make sure you haven’t missed anything.

In part 1 of this mini-series, I shared my crazy story of getting a 2nd degree sunburn on a recent trip to Miami, and told you how I healed it in just one hour!

In part 2, I gave you a 25 minute audio, my “7 Steps to Gorgeous Skin”...

Plus a free “Ultimate Checklist” you can use next time you’re shopping to simplify things and make sure you’re only buying food that will contribute to the healthy, glowing skin you want....

Then in part 3, we heated things up with a nice hot bath, where I showed you how to properly detox and exfoliate your skin, and I shared a couple of products that can help you do that...

So if you haven’t checked out each of these 3 other parts, I recommend you do so now...

Because here's the thing: I'm only going to keep talking about this mini-series for a few more days.

So make sure you take advantage of all these amazing tips and tricks before then.

Some of you only know me as the Natural Allergy and Wellness Doctor...but I am also the founder and CEO of Purigenex, a wholesale skincare company.

I would like to tell you a short story about how I became an expert on natural skin care.

10 years ago, my skin was extremely weathered, wrinkled and sagging from sun exposure, swimming and surfing in the ocean.

Being that I was a natural medicine doctor I was only interested in using natural products on my skin, rather than taking more aggressive routes such as chemical peels and laser treatments as my dermatologist suggested.

I used all sorts of creams I got from Neiman Marcus and Barneys, and I have to tell you the truth!

I even ordered from a TV infomercial that was hosted by a very well known celebrity. And after a couple of years of trying different products and potions and nothing helping my wrinkled, sagging skin.

Then one of my Korean friends brought back from Seoul Korea, this collagen mask and serum that changed my skin overnight.

As soon as I did my first mask, I knew it was something so different from everything I had tried before. I remember I kept on pinching my skin to feel that the density of my skin was better, more plump...

I even felt this tingling in my skin like it was alive again, not dull and sagging. I saw this vibrant glow in my skin and I was totally convinced that this will be the answer to my wrinkled old looking skin.

I wanted to look as vibrant on the outside as I felt inside...my youthful energetic self.

Problem was that this product was only available to Korean hospitals and doctors, but I just had to have it... not only for myself but I was also thinking of my patients that were also complaining of their skin quality.

So I literally called Korea, and talked to the tissue-engineering doctors who developed and held the patent to this incredible collagen... and long story short, I got the distribution rights to it and that is how the Purigenex Company started overnight!

Based on the principle that Healthy skin leads to better Health!

At the time, doctors were the only ones who knew the value and use of collagen- they were already using injectable collagen with their patients to plump up their lips and smoothing out the wrinkles.

So it was a perfect opportunity to sell to dermatologists, plastic surgeons and laser centers this unique, one of a kind, transdermal collagen that would actually penetrate the skin without injections, plumping up and revitalize the skin of their patients in a natural non-invasive way.

Since then we have been in business for 8 years and Purigenex has been sold to thousands of satisfied patients all around the world.

**Ok, so now the part you've been waiting for... My #1.... most important secret to healthy, glowing skin... Is to put yourself first and treat your body with the love and respect it deserves by using high quality, natural skin products.**

I can tell you with full confidence and authenticity that my Purigenex formulas have actually reversed the aging process of my skin...

Without these products, which I'll tell you more about in a minute.... I might have been able to slow the aging process down with the good nutrition, detox bathing and all the tips I gave you in the audio, but using my Purigenex product has literally reversed the aging process and allowed me to look younger today than I did 10 years ago!

I believe it is the #1 reason why my skin has the healthy tone, plump density and smooth texture at the age of 53 without any injections, chemical peels, laser treatments or surgery.

And I can tell you from experience with using these products on myself AND from what I hear from doctors and patients...that when you feel the confidence that comes from absolutely loving the skin you're in, then EVERYTHING changes.

And it's not just about looks either.

When you have healthy skin, you have a healthy body, and you not only look younger... you feel younger!

You're able to wake up every single day and look in the mirror and feel that confidence and that inner glow, and how you interact with your whole world becomes a little bit easier, and definitely more positive and less self-conscious.

Something that may have irritated you before... now isn't such a big deal. You're able to handle the situation better, and be more loving to your family...

The truth is that all kinds of wonderful and amazing things can happen in your life when you feel your best...

And you can only feel your best when you're committed to treating your body with the love and respect you deserve....

Now, just like knowing what to eat is critical to your skin health.

So is knowing what types of skin products to use.

Now, you may already know this, but the first principle of skin products is that - in general - you get what you pay for.

This is one industry where this is the absolute truth - the inexpensive products you can find in typical drug stores are going to be chemically engineered, less effective, and have potential irritating side effects...

You want natural, high-quality products with superior ingredients made by a responsible company...

Now, I want to be clear: I'm NOT telling you to go out and only look for the most expensive products out there...

As I have already told you, I have done that in my early 40's and found even the most popular expensive products from Neiman Marcus and Barneys didn't make a dent in my wrinkles and discolorations.

There are skin creams and serums out there that literally cost thousands of dollars - up to \$10,000 - which is just crazy!

So instead, I want to share with you my Purigenex products which are made with the highest quality ingredients that have been largely responsible for my skin looking younger today than it did 10 years ago...

I've put together some really great discounts for you that can only be found here in this mini-series, and that have never been offered before.

**First up is my flagship product, the Purigenex Intensive Collagen Serum and Mask Kit.**

If you remember in the first video when I healed my 2nd degree burn in just 1 hour... this is the kit I used to restore my skin.

And the funny thing is, although I knew that this product was originally used for burns and wound regeneration in Korean hospitals, this was actually the first time I used it for that purpose!

This is the first product I normally use on my face as part of my regular skin maintenance routine.

I have to tell you that this collagen kit, more than any other products I've ever tried, is the one thing that has made the biggest difference in making me look and feel younger!

It's really quite amazing...

Until now, it's actually been sold exclusively to plastic surgeons, dermatologists, doctors and medspas for the past 8 years, not to the general public.

This is the first time we have been able to offer these amazing discounts to my health community, and I hope you take advantage of this limited time offer.

What sets this collagen apart from any other over the counter collagen products is that it is refrigerated to maintain it's bioactive properties.

Collagen that is not refrigerated unravels into a gel like protein that just sits on your face and clogs your pores.

You get a 2 month supply which includes...8 collagen masks to be applied one each week and a 1 ounce bottle of the concentrated collagen serum for daily application.

The Intensive Collagen Mask penetrates cells and increases the strength and tone of loose or aged skin tissue, and prepares the skin for deeper penetration using our Intensive Collagen Serum.

The daily serum application then nourishes and fortifies the skin and activates the body's own collagen generation.

Which is absolutely critical to your skin's health and appearance.

The Purigenex collagen system is sold by doctors & plastic surgeons, at a minimum of \$699 And as high as \$1500 hundred \$ for a two month supply. Depending on the location of the doctors... like in Beverly Hills, Newport beach, and Palm Beach you know what I mean...

But today, because you've participated in this mini-series and are a part of my private community,

I've put together a special price for you of **just \$399...** that saves you \$300, which is 43% off the lowest doctor retail price.

AND we'll include Free Overnight Shipping in a refrigerated pack for you as well- which is a 50\$ value.

**Next, we have the Age Reversal Kit, which contains an Age Reverse Serum and an Age Defying moisturizer...**

These 2 products are really powerful together because you have the Age Reverse Serum, a proprietary formula that contains a blend of SUPER Antioxidant- glutathione, edelweiss Plant Stem Cells, hyaluronic acid, Vitamins and Phytonutrients within an Optimal Delivery System.

What that means is that this serum is going to continue to maintain the benefits of the collagen system by tightening, sagging skin, reduce discolorations, smooth out wrinkles, and optimize healing and rejuvenation of aging skin...

Then after you apply the serum, you put on the Age Defying Moisturizer, which is proven to minimize and prevent signs of aging, deliver intense hydration, and improve elasticity.

They're both made with incredibly high-quality cosmeceuticals, and with all natural ingredients.

Now, the regular price for this Age Reversal Kit is \$174, but I've managed to put together a special deal for you here today, and **ONLY** for the next few days during this mini-series that's going to save you 25% and give you Free Shipping.

**So that drops the price down to \$129**, which is a really great price for the quality you're getting here...

Many of my patients love the intensive collagen serum and mask kit and anti-aging products so much that they actually buy them all together so that they can maximize their results..

**And that's why we've created this Ultimate "Gorgeous Skin" Kit for you today...** which includes everything I just talked about and gives you all the benefits of our Intensive Collagen Serum and Mask kit and Age Reversal Kit.

If you were to get this at the doctor's office the regular price for this bundle would be \$873, but we wanted to offer this to you at an incredible price, so we're knocking 43% off that so it's **only \$499** for the Ultimate Gorgeous Skin Kit!

This is best deal available here, and frankly, the best deal that's ever been offered to the public...

However, there is one more thing I want to talk about, and that's the **Simple Skin Care Kit**.

This includes the hydrating body butter and probiotic cleansing bar that I mentioned in the 3rd part of this series, as well as an element protection stick that I'll tell you about in a moment.

The probiotic cleansing bar is a Pre- and Probiotic enriched, chemical-free, hypoallergenic, natural cleansing and moisturizing bar that you can use every single day in the bath or shower.

It's amazing in controlling body odor, acne and fungal infections such as athlete's foot and skin conditions such as eczema.

And the hydrating body butter is made of natural & organic ingredients from Hawaii that leaves your skin feeling soft, hydrated and refreshed!

Then there's the Purigenex Element Protection Stick, which protects your skin from intense outdoor elements like the sun and wind, while nourishing and healing at the same time.

You can use it on your face and body, and it's made with all natural sunscreens of zinc oxide, jojoba oil and comfrey leaf with a 27 SPF.

I apply it on my crow's feet area and lips every day!

It's also water resistant, meaning when you go for a swim or surf in the ocean, you will see that the water just rolls off the skin... plus it has natural mild insect repellent properties with lemon grass and lavender oil.

So this kit with these 3 products is normally \$73, but today we've discounted it down **to just \$55** for you, which saves you 25%.

And as my gift to I will include my **famous Korean scrubbing cloth** you saw in the bath video that will exfoliate your dead skin from head to toe!

And remember there's also Free Shipping!

Look below this video right now, and choose the option that's best for you...

And please note that if you'd like add the Skin Care kit to one of the 3 bundles, then you can click the bundle you want first , add it to your cart, then you will be able to add on the Skin Care Kit from there.

You can also buy just the Simple Skin Care Kit by clicking the link below the 3 bundles.

So that's it!

I want to thank you so much for tuning into my "*Skin Secrets*" mini-series and joining the thousands of others who have done the same....

Make sure you go back and check out the first 3 sections if you haven't done so already, and use what we've talked about to put yourself first and get the healthy, beautiful skin you deserve.

Thanks again. This is Dr. Susanne and have a wonderful day!
