DELPHINE GENNISSON

DELPHINE'S NOTE

Do you know that your look speaks before you? Because we live in this valley, snow boots and yoga pants can easily become the base of our wardrobe. Besides that, many women are extremely busy everyday being a wife, a mum and/or an entrepreneurial woman, and our sense of fashion and what makes us feel good, gets put aside. Or, even if we care, we are quite often not sure if it's the right fit, the right look or the right color which can make us look insecure and everybody can see that.

I am here to remind you that the way you look is as important as what you eat, or how often you exercise. In all the services that I offer, I CAN and I WILL teach you how you can improve your way to present yourself in everyday life.

I want every woman being able to feel as confident as a Parisian is each time she leaves the house on the morning. We all deserve to be confident. We all do. You do.

Fashionably yours,

STYLE ASSESSMENT

**(1 to 2 hours)
Included in every package**

What is "personal style", what is "YOUR personal style"? The style assessment will help you to determine who you are and how you want to be seen. The Style Assessment cannot be a service by itself and is part of each package.

2 hours are dedicated to you and your style. It's a great opportunity to concentrate on yourself, understand who you are on the inside to make the best choices for your external persona.

Your stylist will teach you how to strategically wear colors, lines, prints, textures or accessories.

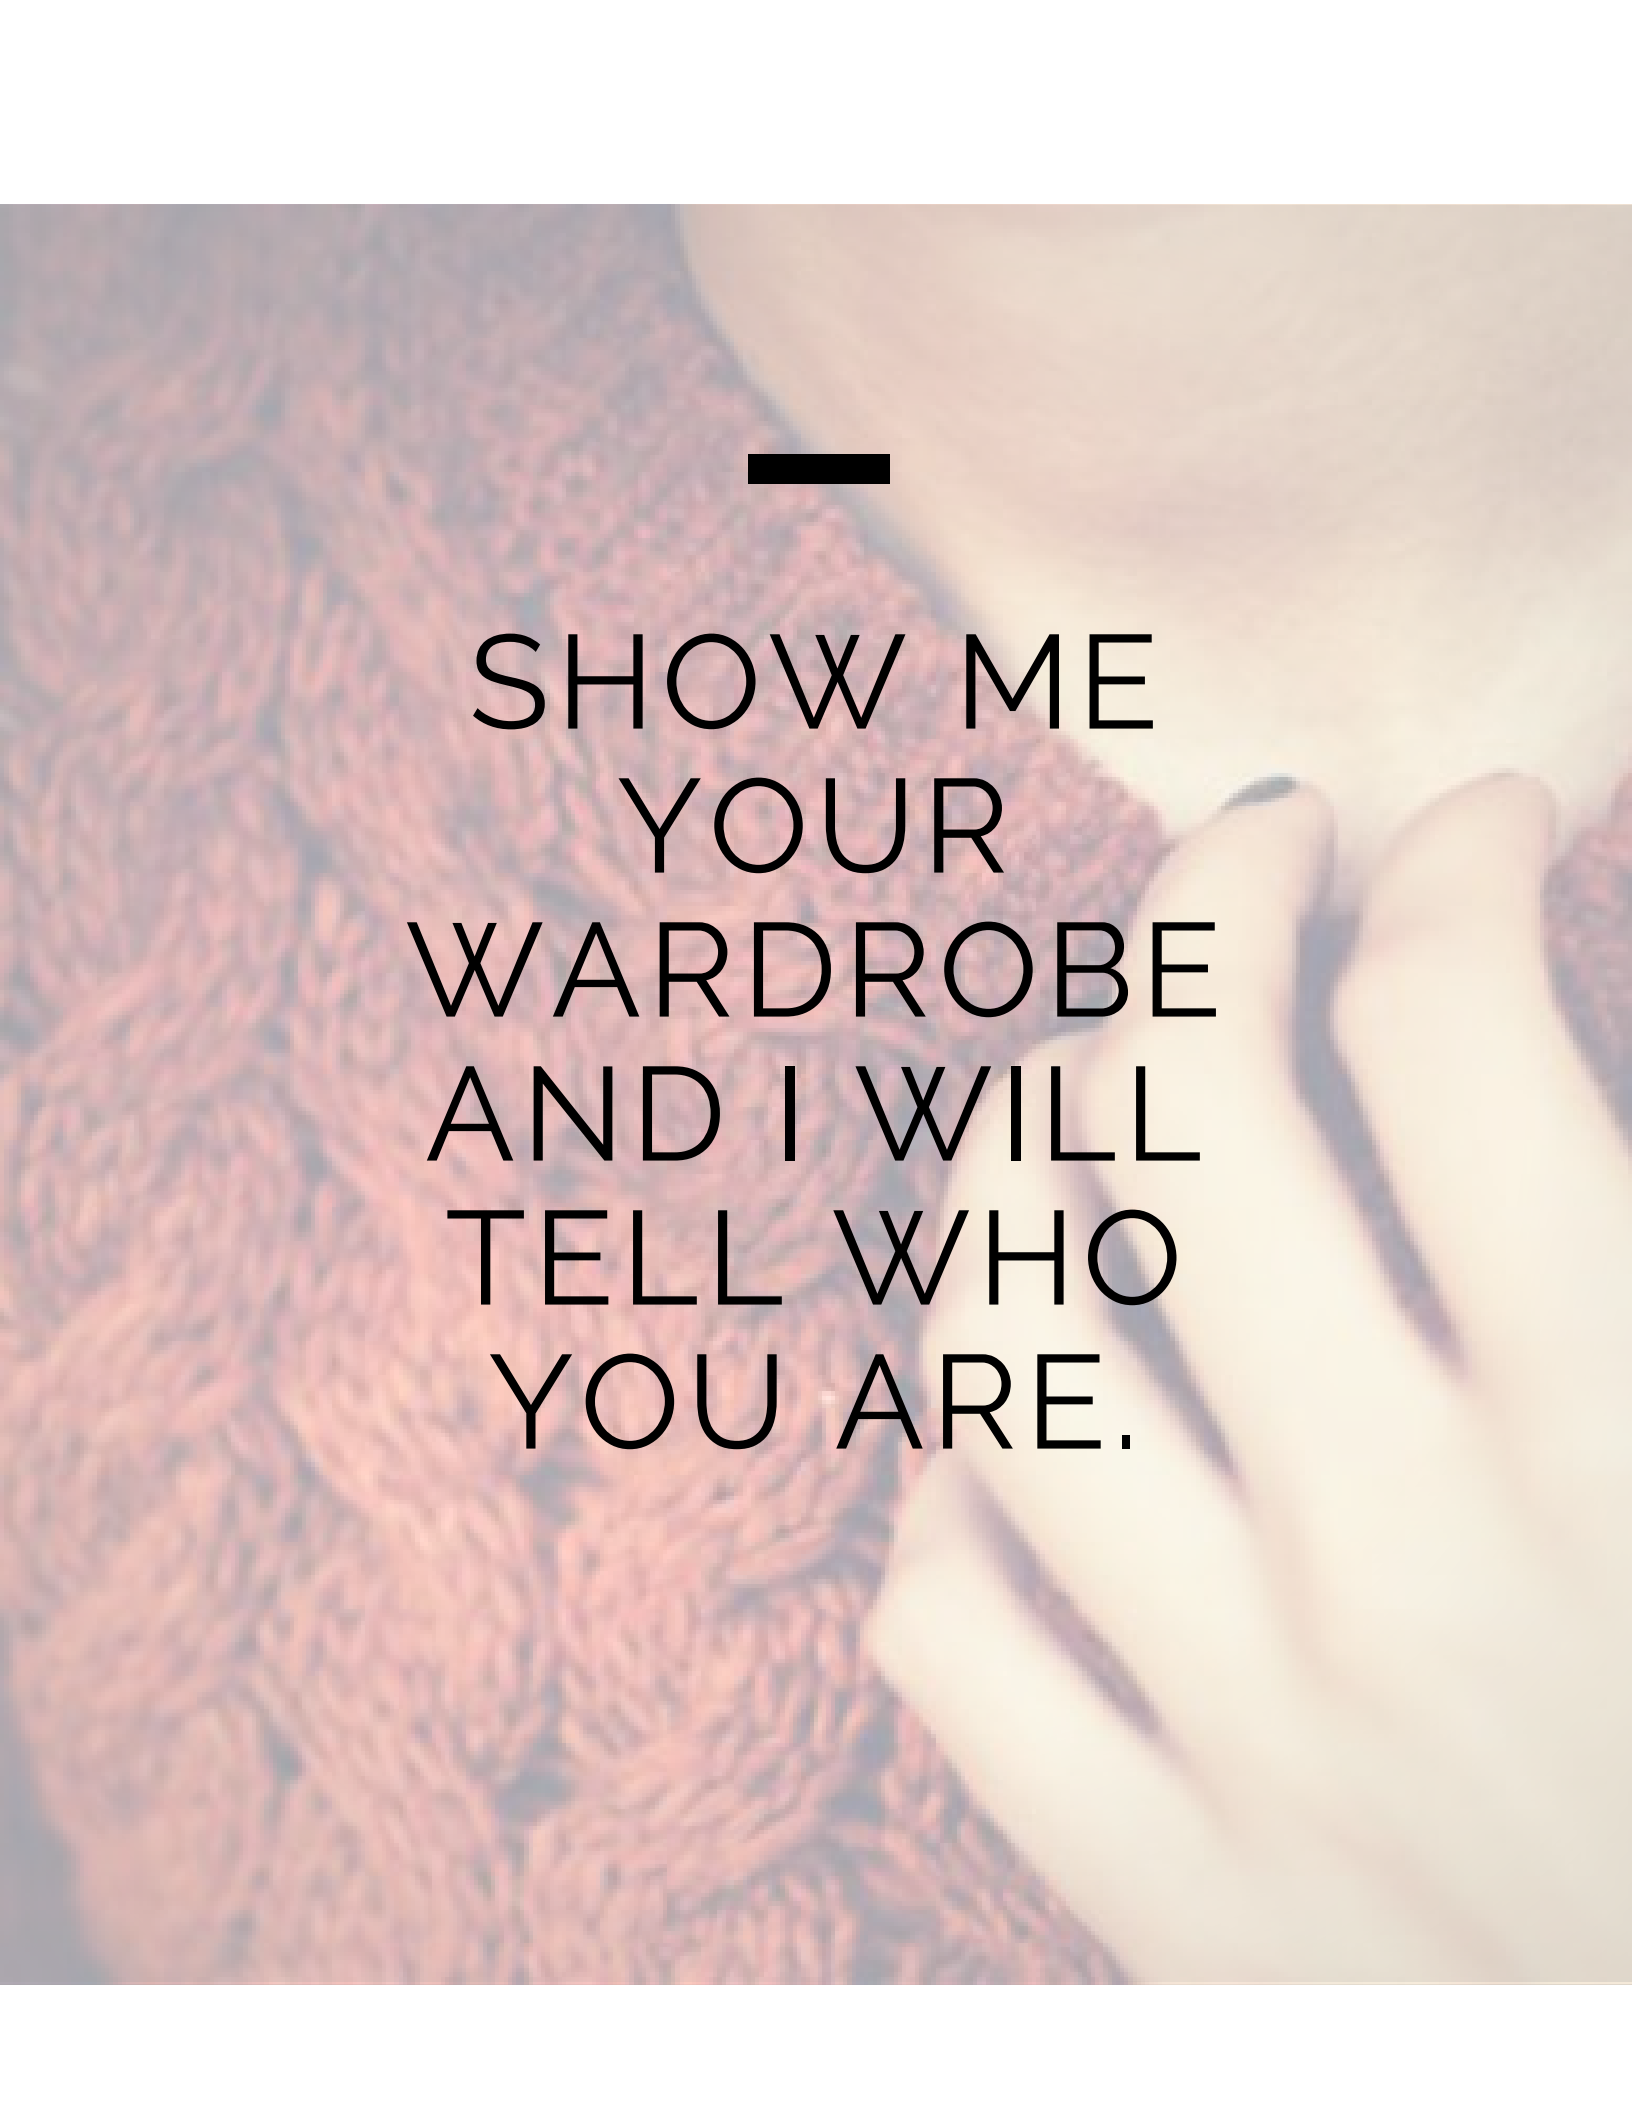

Together, you will go through all your concerns, one by one. At the end of this session, you will leave the room with new tips for your shopping, you will learn how to be well-dressed in all circumstances, what to emphasize and what to avoid.

WE WILL WORK ON:

- your body shape - fit analysis
- your best colors - colors analysis
- your taste/style
- your lifestyle
- your career

You will become more confident and understand your own style according to your personality and your lifestyle.

WARDROBE EDIT

3 hours

There is nothing worse than having a wardrobe full of clothes, and nothing to wear.

Just like your doctor will consult you, myself, your personal stylist will analyze and give you a diagnosis of your wardrobe.

1 - Firstly work on the current season, you and your stylist will go through everything, pointing out what is working, what is not and what is missing. Delphine will analyse what is your style, what's fitting you right and the colors that makes you glow the most.

2 - New outfits will be created according to your personal style and lifestyle, and you will understand why certain items don't work and what you can do with it (alterations, re-sale or donate).

3 - According to your style and after analysing your closet, your stylist will advise you a shopping list of items missing or who could be complimentary to your exciting style.

MOST OF THE
TIME WE BUY
THE WRONG
CLOTHES
BECAUSE WE
DON'T
KNOW WHAT
IS ENHANCING
OUR BODY.

First,

learn your body
type, what is
enhancing you
and what you
need to avoid
(shapes,
patterns,
colors).

Then, you go
shopping!
