Cut out the pieces of code from the end of the book and put them in the right order. Then make your own tooth brushing algorithm on the right. You can use writing, drawing or flowcharts to make your algorithm.
Compare with a friend. How many different ways can you think of making an algorithm? Use your own way of writing. If you want to, you can try out flowcharts.
TASK 8
TOOTBRUSHING ALGORITHM

define brush

move 2 step

move 5 steps up

stop

pick toothbrush

if clean then

else

change x by 1

wait 1 secs

change -x by

move steps up 5

move steps down 2

do brush

repeat 32 times

START

END

brush
