

From Tragedy Comes Hope

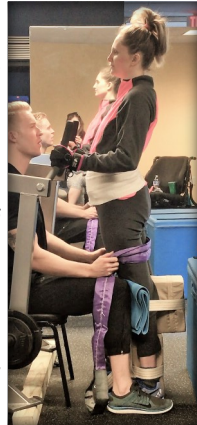

In May of 2013 our daughter Lauren, had returned from her Freshman year at Penn State University. Life was good for the optimistic 19 year old. A month later, we received a life changing call telling us that Lauren had a tragic diving accident. She fractured 3 cervical vertebra and was diagnosed with a devastating Spinal Cord Injury; a Quadriplegic, and was paralyzed from the chest down.

We learned that being paralyzed was far worse than not being able to walk.

Lauren experienced some frightening setbacks. We were taught her 24/7 nursing care including neurogenic bowel and bladder programs. We then became her full time caregivers, rotating shifts around the clock.

Lauren learned that improving her odds of recovery required intense workouts to reactivate her neurological systems. However, insurance provides only 20 hours of rehab PER YEAR. We knew that this was insufficient. Thus began her quest to maximize her recovery by working out 20+ hours PER WEEK! Lauren attends active therapies at specialized centers who offer cutting edge technologies. The expense is 100% self-pay but is the only therapy that has regained movement for her. **A recent trial showed that Active Walking Therapy for paralyzed participants was a key factor in regaining independence.** Results showed 60% regained bowel & bladder function and 75% walked!

<http://www.newmobility.com/2016/07/china-trials/>

We remain passionate about teaching dive safety to help prevent this catastrophic injury. Lauren speaks publicly to local students because **28% of those paralyzed from diving accidents are between ages 10 and 19 and 45% are in their 20's.*** Education and prevention are key! She aspires to raise awareness on a national level as well. Her tax exempt fundraising through HelpHopeLive also benefits those in a regional SCI Fund, in which she is also a member.

Thank you for your compassion and support.
Janice & Mik Shevchek
