**Assumes utility escalation rate of 4% annually

THE SOLAR COMPANY YOU CAN COUNT ON

Powur has raised millions in investor funding for a better way to go solar. Our unique business model eliminates the middleman so customers receive the lowest prices with the best service.

Powur has installed solar on thousands of U.S. homes delivering reliable, inexpensive, clean energy you can count on. The future is clean, affordable energy and Powur will get you there.

DIVERSE FINANCING OPTIONS

Powur has the most robust product offering and financing options available in the solar industry. We make it painless and easy for homeowners to transition to solar. Here's an at-a-glance overview of the financing and products that we offer:

\$0 Down Lease

Offers allow, fixed monthly payment for 20 years. Full and partial prepay options for added savings.

\$0 Down Loan

Pay for your system with a low APR, fixed cost loan for terms ranging from 10 to 25 years. With a loan, you keep all the eligible tax credits and solar rebates!

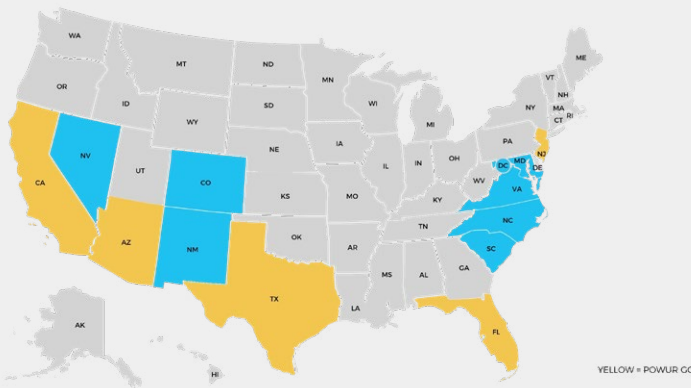

Cash

Buy the system outright and own the energy from day one. Benefits from available tax credits go straight to you.

No matter which option you decide is best for you, the result will be the same: clean energy for your home and more money in your pocket for the things you really care about.

States We Serve

Committed to a Better World

Powur is the first solar company to offset 100% of the emissions from the manufacturing and installation of a solar system.

Our vision is to accelerate the adoption of sustainable energy worldwide. We strive to live by our values, and set an example for others to follow.

Every month, Powur contributes funds to Ecologi to offset the carbon emissions created by the solar manufacturing, sales, and installation process. We publish the details of every project we support in our open ledger powur.com/offset

If you are ready to see the substantial energy savings of your future solar system, contact a Powur Consultant for your free proposal today!
