

Fat Shark Specification Document

Model Number: 2001
Model Name: RCA Male to 4p Right Angle with Power
Document Revision/Date: Rev A/ 08.26.2014

Product Description:

This 3m AV Cable provides a 3.5mm 4-pole AV connector and barrel connector both on the headset side, while the RCA connectors and male/female barrel connector on the base station side. This allows the user to share base station power source without special adapters or soldering.

Note: Fat Shark does not recommend powering your headset directly from an RC battery pack without Fat Shark Power Shield Safety Circuit (sold separately).
