Fat Shark Specification Document

Model Number: 2002
Model Name: BASE Headset AV Cable
Document Revision/Date: Rev A/ 08.26.2014

Product Description:

This 3m AV Cable provides a 6p Square Futaba connector that plugs into your Base headset and RCA connectors on the other end for connecting to AV device. It also allows the user to share base station power source via a Y power connector with male and female DC heads.

Note: Fat Shark does not recommend powering your headset directly from an RC battery pack without Fat Shark Power Shield Safety Circuit (sold separately).
