

Fat Shark Specification Document

Model Number: 2114
Model Name: ezUHF Data Cable
Document Revision/Date: Rev A/ 08.27.2014

Product Description:

This 4p MiniDIN to 4p MiniDIN ezHUF Head Tracker Data Cable is compatible with head tracking enabled Fat Shark headset models. This cable provides a head tracking data link and power sharing of the RC radio's battery through the ImmersionRC ezUHF transmitter (all models).

Note: Cable can power Fat Shark headset even if no head tracker module installed.

Specifications:

Electrical:

- Plug Type: Mini-4p DC Connector

Mechanical:

- Cable Outer Diameter: 3.8 mm
- Length : 1.2 m
- Weight: 35.5 g

Packaging:

- Packing Method: PE Plastic Bag

Operational Advice:

Due to the extra drain on the battery, a 3S 2200mAh Li-Po battery pack for the RC radio is recommended when powering headset off radio. A normal NiMh radio battery may not have sufficient battery life for safe flying.
