Fat Shark Specification Document

Model Number: 2613
Model Name: 9G 180 MG Pan Servos for PTR
Document Revision/Date: Rev A/ 10.14.2014

Product Description:

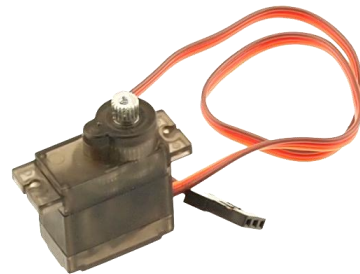

Light weight digital servo utilizes metal gears for fast travel speed and durability. Its ultra-smooth motion with 180 degree travel makes it an ideal servo for camera panning.

Note: Designed for pan part only.

Specifications:

Electrical:

- Tilt/Roll Type: Digital Controller
- Working Voltage: 4.5~6 volts
- Angle of Rotation: 180°
- Motor: DC Motor
- Wiring:
 - Orange Line: Control Signal
 - Red Line: Power Input
 - Brown Line: Ground

Mechanical:

- Water Resistance: Not Available
- Wire Length: 270 mm
- Size: 22.4 x 12.5 x 22.8 mm
- Weight: 12.4 g

Operation:

- Operating Temperature: -10°C~60°C

Packaging:

- Packing Method: PE Plastic Bag
