

Fat Shark Specification Document

Model Number: 1601
Model Name: Diopter Lens Kit
Document Revision/Date: Rev A/ 08.29.2014

Product Description:

All Fat Shark headset models have slots integrated in front of display lens which allows for diopter lens accessory to be inserted for accommodating near sighted users. This 6-piece kit includes 2 each of -2, -4 and -6 dpt.

Specifications:

Optical:

- Diopter: Standard -2D, -4D, -6D

Mechanical:

- Dimension: 28.7 x 20.47 x 1.65 mm
- Weight: 1.5 g / pcs

Packaging:

- Packing Method: PE Plastic Bag

Operational Advice:

To install the diopter lens, remove eye cup and slide horizontally into slot. Due to the difficulty in re-inserting the locking tabs of the rubber eye cups (early model headsets) its recommended to only remove one side of the rubber so less work to put back.

WARNING: IF FRICTION OR RESISTANCE TO INSERTION IS ENCOUNTERED, STOP AND CHECK FOR CORRECT ALIGNMENT. INCORRECT INSERTION MAY CONTACT AND SCRATCH HEADSET LENS.
