Fat Shark Specification Document

Model Number: 1608
Model Name: 5G8 Dipole Antenna
Document Revision/Date: Rev A/ 08.29.2014

Product Description:

This 5G8 Dipole Antenna is custom-made for use with Fat Shark and ImmersionRC 5.8 Ghz transmitters and receivers.

Note: Every unit is tested to ensure an SWR <1.7 before it leaves factory.

Specifications:

Electrical:

- Connector: SMA male
- Frequencies: 5740~5860 Mhz
- Antenna Gain: 3 dBi

Mechanical:

- Dimension: $\Phi 10 \times 110$ mm
- Weight: 9 g

Packaging:

- Packing Method: PE plastic bag

Operational Advice:

This antenna has a standard SMA male connector (NOT RP-SMA), so it may not be compatible with other manufacturers' equipment.
