Fat Shark User Manual

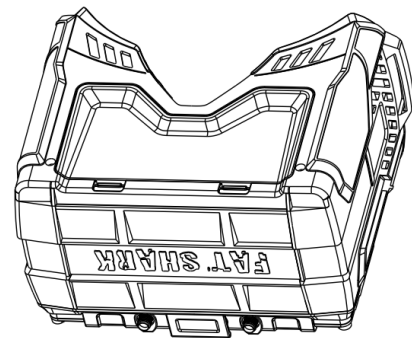

Model Number: FSV1621
Model Name: Transformer HD Diopter Lens Kit
Document Revision/Date: Rev B / 2017.06.08

Description:

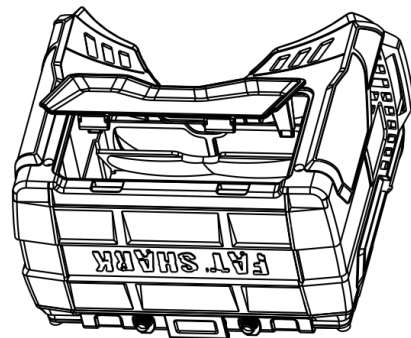

The Transformer Single Panel HD viewer has a holding plate on the bottom of the housing that gives access to the unit's lenses. For those with custom eyeglass prescriptions, custom lenses can be placed in using this hatch. The diopters are sold as an accessory and include a 1.5x magnifier lens and 1.0x magnifier lens.

Installation:

Step 1: Put the goggles upside down gently.

Step 2: Open up the lens holding plate and take out the original magnifier lens inside of the HD viewer.

Step 3: Based on your need, insert the 1.5x or 1.0x lens into the HD viewer and return the bottom plate.
