How to measure the water using the triangle cup

Be carefully not to put in too much water.

Something that is convenient to use Washcloth

You can wipe your hands if the stickiness from kneading the dough bothers you.

- Read through the instructions before beginning to make the donuts.
- Hints for making the donuts are also written on the donut sheet.

1 Make the dough

Put the water in the **round depression** in the "J" tray. Pour in the custard dough mix there and mix it well.

Mix by pressing the bottom of the spoon into the mix until the dough bunches together. After that use your hands to knead the dough into a ball. Divide the dough into two equal portions and place them on the donut sheet.

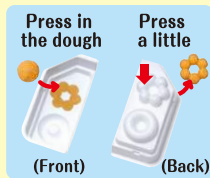

Next, put the water in the **round depression** in the "J" tray. Pour in the cocoa dough mix there and mix it well. Prepare the dough the same as for "A."

2 Make the donuts

Put the dough balls into the tray donut molds and press the dough into the shapes of the molds. Press the back of the tray molds a little to remove the donuts. Place the formed donuts onto the donut sheet.

※You can mix together the custard dough and cocoa dough to create a mixed dough!

※If you are having difficulty removing the donuts from the mold, use a spoon to make it easier.

3 Make the vanilla sauce

Put the vanilla sauce mix into the "♥" tray. Pour in **1 triangle cup of water** and mix well.

4 Make the strawberry sauce

Put the strawberry sauce mix into the "★" tray. Pour in **1 triangle cup of water** and mix well.

5 Make the "chocolate pen"

Put the chocolate sauce mix into the "J" tray. Pour in **1 triangle cup of water** and mix well.

Fold back the top of the pastry bag and use the spoon to fill it with the chocolate sauce. Twist the top of the pastry bag a little bit to create a "chocolate pen."

※A small cut makes it easier to decorate the donuts!

Decorate the donuts

Use the vanilla sauce, strawberry sauce, chocolate pen, topping, and crunch to make pretty decoration donuts of your own design!
