

Create Provider Account Contact

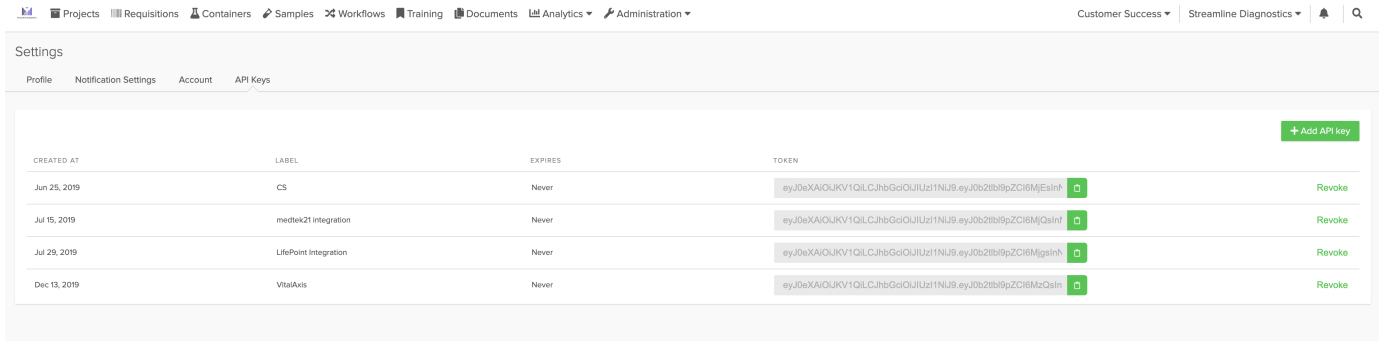

Using our REST API to create a Provider Account Contact

The Create Provider Account Contact request is an HTTP POST call to the following urls:

- staging - https://lab-services-staging.ovation.io/v3/provider_accounts/{id}/provider_account_contacts
- sandbox - https://lab-services-sandbox.ovation.io/v3/provider_accounts/{id}/provider_account_contacts
- production - https://lab-services.ovation.io/v3/provider_accounts/{id}/provider_account_contacts

Authentication

The call requires a Bearer token to be sent in the HTTP Authorization header. This token can be generated by signing into your staging, sandbox, or production environment, selecting User Settings > API Keys and Add API Key.

The screenshot shows the 'Settings' page in the Ovation application, specifically the 'API Keys' section. The page has a navigation bar at the top with 'Profile', 'Notification Settings', 'Account', and 'API Keys'. A '+ Add API key' button is in the top right. Below is a table of existing API keys:
