SAFETY AREA

All important elements of your artwork need to be included within the safety area (yellow dotted line). Otherwise, you run the risk of artwork being cut off when it is trimmed.

TRIM LINE

This is the finished size of the table tent, after the excess edges have been cut off.

BLEED

Extend your artwork to this line if you want your artwork to extend past the trim line. Warning: images and text in this area will be trimmed off when cut. We require .125" of bleed.
