

# Welcome

Zoho Analytics - Advanced Training

Today's Theme:  
**Compliance**

# Quick Tips for Maximizing This Session

**Use multiple monitors if you have them**

**Take Zoom out of Full-screen mode**

**Add questions to the chat to be addressed at the end of the session**

# extendedReach Zoho Support Team

**Mary Ellen Wallace**

Business Intelligence Analyst

**Miranda Shoemaker**

Support Specialist

**Nicole Snyder**

Director of Customer Experience

**Judy Bienvenu**

Support Consultant

# Agenda

- Brief overview of Zoho Analytics
- Compliance Reports Demo
  - Activities: Service Date vs Completed Date
  - Compliance – Activities and Reports
- How to get help

# Functionality we'll cover:

- Modifying column names
- Formatting dates and numbers
- Filters and User Filters
- Conditional formatting

# Relax and Absorb What You Can

# What is Zoho Analytics?

Zoho is a 3rd party custom report and dashboard builder included in our Plus and Enterprise packages.

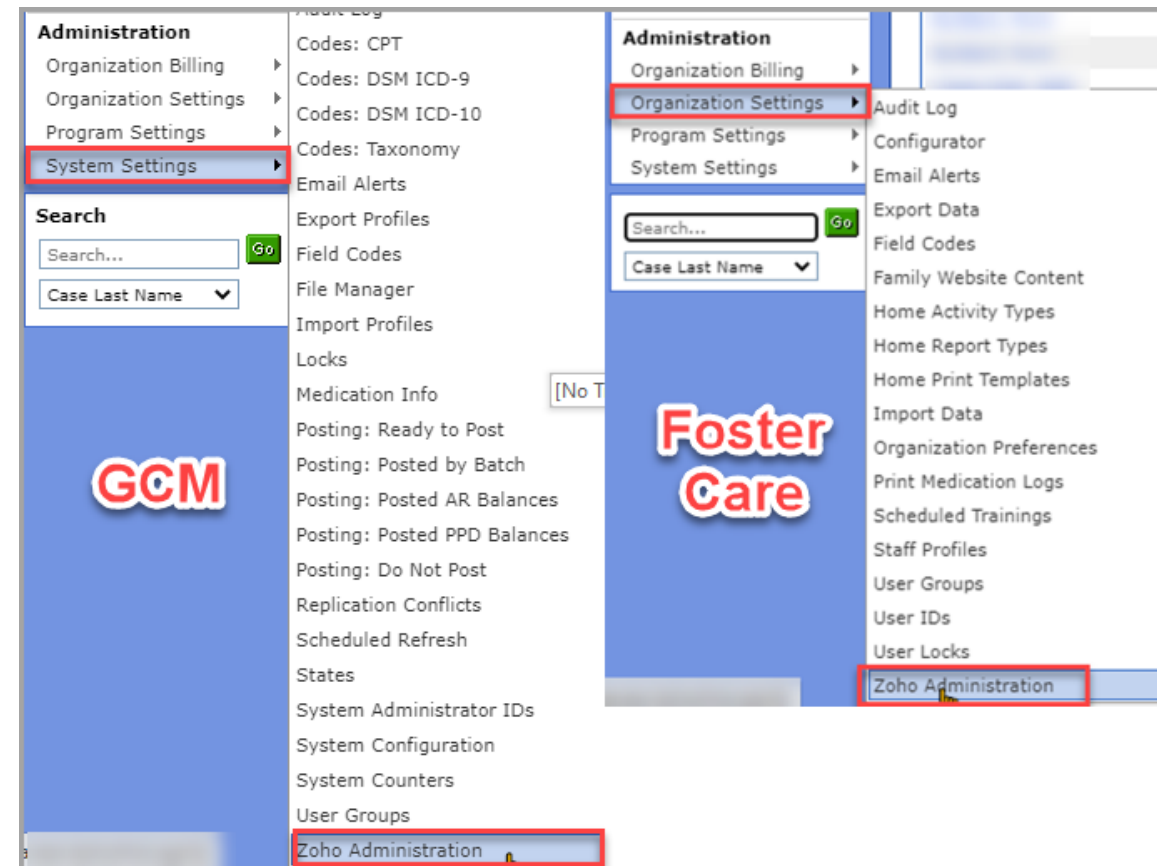

It allows you to quickly build charts, tables, and dashboards using an intuitive drag-and-drop interface.

Zoho uses data from extendedReach and updates the data automatically each night - so your reports are always up to date.

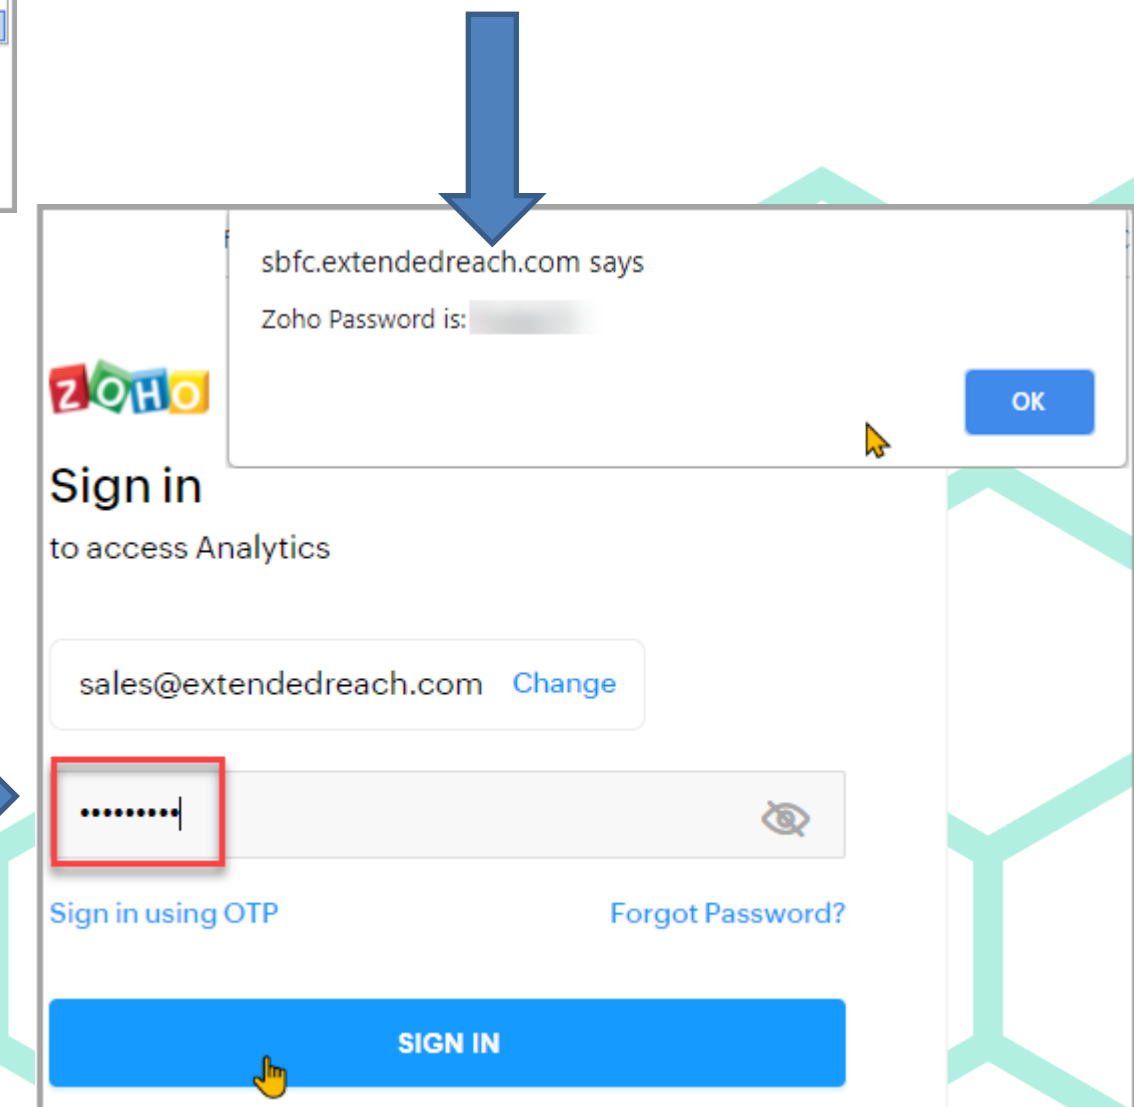

# How do I access Zoho Analytics?

Zoho Analytics can be accessed through System Settings (GCM) or Organization Settings (FC).

Select  
'Zoho Administration'  
and copy the password  
that appears in the  
resulting popup.

Paste that password into  
the Zoho login page and  
click Sign In.

# Multi-Factor Authentication

## Enable Two Factor Authentication.

### Secure your Zoho Account.

Because stronger passwords alone aren't enough to protect your account from password breaches. Add an extra layer of security to authenticate your login through any one of the following:

☒ OneAuth (Recommended)

Supports Face ID, Touch ID, Fingerprint, Push Notification, QR Code, and TOTP

INSTALL NOW

☐ Mobile Number

☐ Time-based OTP Authenticator

☐ YubiKey

[Remind me later](#)

Click 'Remind me later' in the bottom right corner to continue logging in.

# Let's Dive In!

- Activities: Service Date vs Completed Date
- Compliance – Activities and Reports

# Activities: Service Date vs. Completed Date

Activities: Service Date vs. Completed Date

# Zoho Help Resources

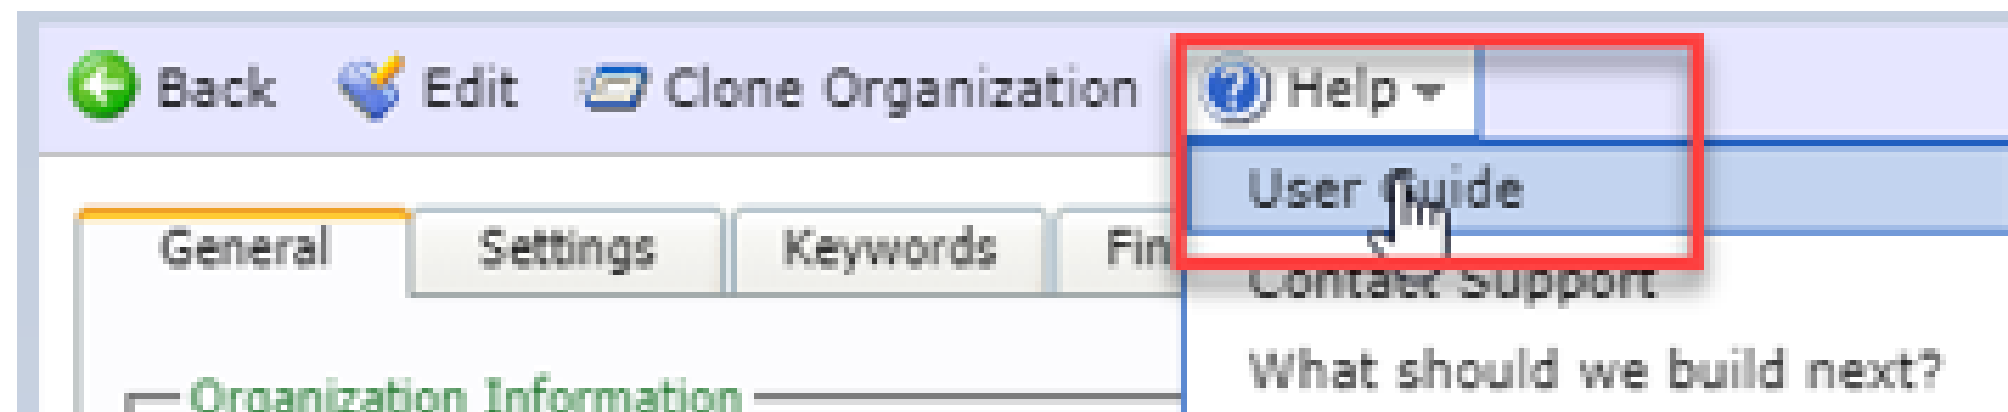

Since Zoho is a 3rd party application, their support team is available to help you with questions about how Zoho works. You'll get the best response by emailing [support@zohoanalytics.com](mailto:support@zohoanalytics.com).

Note: If you use the Help link from within the Zoho application, the email will be copied to the eR helpdesk, but we will defer to Zoho to respond initially.

If you have questions about where to find your data in the eR tables within Zoho, the eR support team is happy to assist you.

We suggest you first check out our Help Center articles and FAQs, available through eR – just search for 'Zoho'. We are always adding to these resources, based on questions we receive from customers.

If you can't answer your question by referencing those resources, please send an email to [support@extendedreach.com](mailto:support@extendedreach.com) for any questions regarding eR data.

# Zoho Help Resources

## What we CAN do to support you:

We can help you troubleshoot issues you are having and provide general guidance on your Zoho questions, or we are happy to review a report or dashboard you have created to answer specific questions.

## What we CAN NOT do at this time:

We cannot design, create, and build new reports or dashboards for you.

If that is something you need, we do have a company that we can recommend to you that would be able to provide these services.

# Your Support Request Should Include:

- As much detail as possible
- Examples of information that will expedite our investigation into the issue include:
  - What do you need to do?
  - What are you having trouble with?
  - Is there a specific report you are having difficulties with?
    - Name of the report
    - Paste the URL from your browser
- Screenshot of the issue

# Additional Training Options

Zoho Analytics offers a monthly (free!) beginners course, as well as an Experts course. We highly recommend these trainings for anyone who will be working in Zoho.

 <https://www.zoho.com/analytics/training.html> 

# Additional Training Options

The extendedReach team will be offering a monthly Zoho training where we'll dive into how to create reports and some Zoho tips and tricks, focusing on different eR-related reports each time.

We plan to offer these trainings on the First Tuesday of every month at 1pm CST.

# Thank you for your time

Q & A
