

Six easy things to spread TAO across your campus

- 1 Check out our Editable Social Media Posts that are ready to go for many occasions and special dates. [Here is the link to our Resources.](#)
- 2 Bring TAO bookmarks to your library. Place a TAO bookmark inside every book that leaves the library. [Here are the Canva templates you can customize.](#)
- 3 Here are Editable Screen Slides that can run on a rotation to let your students know that they have free anonymous resources. [Canva template here.](#)
- 4 Kleenex on the Go packages are a great giveaway, since no one throws one away and they get used when you are sick or sad. Put a TAO label on the package. [Here's a link to the details and labels ready to print.](#)
- 5 TAO Digital Flyers are Topic-based one pagers directing learners to specific content in TAO. [Here's a link to them in our Resources.](#)
- 6 TAO Self-Help Referral Guides are brief one page/two sides illustrated guides allowing faculty or staff to direct learners to specific content in TAO. [Here's a link to them in our Resources.](#)

And here is the best way...

Use the TAO content as faculty assignable homework by creating courses in your LMS. Build stress reduction, coping and communication skills and give your learners credit for it! [Here's a link to more information on how to do this.](#)
