ORBIT

VELO DUO

QUICK START

One tracker. Your choice of network.

Keep this leaflet for future reference

START HERE

Choose one network

Use Orbit Velo Duo with either Apple Find My or Google Find Hub.

Works with Apple Find My

Works with Android Find Hub

Only one network is active at a time.

Pair and test before fitting the tracker to your bike.

FOR APPLE IPHONE

Add to Find My

Works with Apple Find My

1. Turn on Bluetooth. Sign in to your Apple Account.
2. Hold the button for 3 seconds to power on.
3. In Find My, open Items and choose Add Other Item.
4. Select Orbit Velo. Follow the prompts to finish setup.

Play a sound to check setup before mounting.

FOR ANDROID PHONES

Add to Find Hub

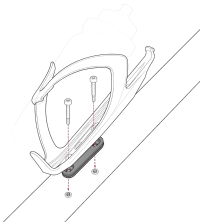

Works with Android Find Hub

1. Turn on Bluetooth, Location and internet. Set a screen lock.
2. Hold the button for 3 seconds to power on.
3. Keep your phone nearby. Tap the pairing notification.
4. Follow the prompts, then open Find Hub.

Play a sound to check setup before mounting.

MOUNTING A

Under a bottle cage

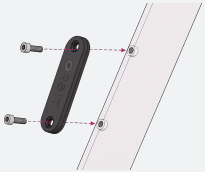

1. Align Orbit Velo with the frame mounting holes.
2. Place the bottle cage over Orbit Velo.
3. Fit the longer bolts through the cage and tracker into the frame.

Tighten evenly. Do not overtighten.

MOUNTING B

Without a bottle cage

1. Place the underside button against the frame. Align the two mounting holes.
2. Fit the shorter security bolts with the supplied tool.

Tighten evenly. Do not overtighten.

The underside button is inaccessible once secured. The top Orbit emblem is not the button.

DEVICE CONTROLS

Before you mount

POWER ON
Hold the underside button for 3 seconds.

Pair with your chosen app and test the sound before securing the tracker.

BUTTON LOCATION
The control button is on the underside, facing the frame when mounted directly.

POWER OFF
Hold the button for 10 seconds.

RESET
Press 3 times quickly, then hold for 10 seconds.

SWITCH NETWORK
Remove Orbit Velo from your current app, reset it, then add it in the other app.

BATTERY

Battery replacement

2 × CR2032 lithium coin cells. Replace both together.

1. Work in a dry place. Remove the tracker from the bike.
2. Replace both cells with new CR2032 cells. Match the polarity marks.
3. Close the housing securely before refitting.

Do not mix old and new cells or different types. Remove depleted cells promptly.

OPENING
Use a small flat-head screwdriver to gently pry the housing open at the seam.

Check the seal is clean and seated before closing.

IMPORTANT

Coin battery warning

Contains coin batteries. Swallowing or insertion can cause severe internal injury and death. Injury may occur within 2 hours.

Keep new and used batteries away from children.

If swallowed or inserted, seek immediate medical attention.

Do not recharge, short-circuit, crush, puncture, heat or burn.

Dispose of used batteries separately according to local rules.

SAFETY

Use and care

A locating aid: always secure your bike with a lock.

Check the mounting bolts and housing regularly.

Keep clear of steering, brakes, cables, wheels and moving parts.

Only open the housing for battery replacement. Do not modify the product.

Stop use if the housing or battery compartment is damaged.

Do not submerge. Dry before opening.

Keep the device and small parts away from children.

Recycle the device and batteries separately from household waste.
