

FEV Tutor - Diagnostic Assessment Options (CA - Common Core Content Standards)

FEV Tutor offers flexible diagnostic assessment options for its partner schools in California which often serve as an additional layer for identifying student need areas and measuring growth alongside any preexisting Benchmark/State test results. Through our assessment partner, the FEV Tutor Academic Team and its partner schools have direct access to over 250,000+ research-based CA-CCCS aligned assessment items of varying DOK levels covering all grade-levels and subject disciplines.

Schools have the option to administer one of our pre-planned assessment packs (ex. *7th Grade Math Pre/Post*, *SAT/ACT Test Prep*, *11th Grade ELA CAASPP Diagnostic*) or can choose to administer a custom diagnostic assessment tailored to specific student needs, identified standards or question types. Our Academic Success Coaches (ASC's) are former classroom teachers who take a consultative approach during the implementation/planning process and walk instructional leads at our partner schools through our layered assessment options designing a custom solution tailored to their unique needs.

1st Layer - Benchmark/State Assessment Results - *RECOMMENDED*

- FEV Tutor's Academic Team analyzes preexisting Benchmark Assessment Results (ex. iReady, NWEA MAP, STAR, Unit Tests, Common Assessments, etc.) in order to identify targets skills/standards and develop a personalized tutoring plan for each individual student.
- We can also analyze summative State Test Data (ex. CAASPP/SBAC) and/or interim State Test Benchmarks.
- Growth/Impact Analysis: Benchmark and State Assessment results are also used as tangible measures of academic growth. District and School Site Licenses include a comprehensive Growth/Impact Analysis conducted by FEV Tutor's Academic and Data Teams looking correlating online tutoring participation to measured achievement gains.

2nd Layer - Diagnostic Assessment Options - *OPTIONAL*

- Option A - Pre-Planned Assessment Packs
 - Skills Diagnostic (3rd - 12th Grade, Math/ELA/Sci/SS)
 - CAASPP/Smarter Balanced Test Prep: 3rd - 8th, 11th Grade Math and ELA (Pre and Post Tests)
 - California Science Test (CAST) Diagnostic (Pre and Post Tests)
 - SAT/ACT Diagnostics
- Option B - Custom Diagnostics
 - Schools share key information with their assigned ASC such as:
 - Subject
 - Grade(s)
 - Depth of Knowledge Composition (DOK 1 - 4)
 - Bloom's Taxonomy Composition (Level 1 - 6)
 - Target Standards
 - Item Type Composition (Multiple Choice, Extended Response, Order/Sequencing, Grouping, Matching)
 - Duration: include any test administration *time* constraints or preference for *number of items*
 - *preexisting Benchmark and State Assessment Data can also be used as a reference point when developing any custom diagnostic
 - ASC's work with their Instructional Team to develop and share custom diagnostics aligned to these specifications, assign those assessments to students in their FEV Tutor dashboards, and report results back to all key stakeholders including Students, Teachers and Administrators.
