

For iPhone Users: **iCrawl, iWalk, iPhone**

With Erik Montano

A walkthrough of basic iPhone features and settings. We will cover all “front-facing” interactions, the control panel, gestures, and Apple ID features. This lecture will give you a stronger understanding of your iPhone and the features that usually get overlooked.

Erick Montano is the founder and CEO of Premier Services of Naples, a technology-solutions company where he provides troubleshooting, educational seminars and consulting for the Southwest Florida area. Erick believes in simplifying technology for every community by providing foundational knowledge and personalized solutions. In addition to providing tech solutions for clients, he also solves any tech issues and removes any lizards his wife finds at home. From 2010 and on, Erick has worked with technology in the visual effects industry, upgraded office services, device installation, social media management and website development. Currently, Erick provides educational lectures to Collier County Senior Center as well as Naples Senior Center on several tech topics.
