## Levolor Faux Wood Blinds

### Care

Like any wood furnishings, faux wood blinds should be dusted regularly to keep them looking new. Use a soft, clean cloth, chemically-treated dust cloth, or dusting mitt. Lower the blind so it is full length, tilt the slats almost all the way down and dust. Then tilt the slats almost all the way up and dust. (Not fully closing the slats in either position allows dusting where the slats overlap.

Blinds may also be cleaned by vacuuming them with the brush attachment of a vacuum cleaner, using the procedure just described.

Faux wood blinds should be cleaned by wiping them with a soft, damp rag and mild detergent such as dish soap. Tilt slats as above and clean. Wipe off excess water with sponge. CAUTION: DO NOT rinse off or towel dry blind. Rinsing the blind with water or towel dry can disrupt the anti-static treatment placed on the slat. Disrupting this anti-static treatment will cause the blind slats to become soiled quicker. DO NOT bathtub clean for the above reasons.
