

Hampton Bay Vertical Blinds

Care

Aluminum Louvers: Can be cleaned with damp cloth and a mild detergent.

Vinyl Louvers: Can be cleaned with a damp cloth. Also, if a thin film of mild detergent is left on louvers, it will eliminate static electricity.

*NOTE: Static electricity can also be controlled by rubbing a dryer sheet along each louver.

Wood Slats: Wood Slats can be cleaned with a damp cloth. Furniture polish can be used to add shine.

Fabric Louvers: Require only periodic vacuuming. For soiled fabrics, we recommend a gradual progression through the following:

- 1) Let the soil dry and try to gently pick it off the fabric.
- 2) Gently scrub with warm water.
- 3) Gently scrub with warm water and a mild detergent such as dishwashing liquid.

IMPORTANT: On all traversing vertical blinds, louvers **MUST BE IN FULL OPEN POSITION** before traversing. On all corded blinds, **ALWAYS USE BOTH HANDS WHEN PULLING CHAIN OR CORD, ONE HAND ON EACH STRAND.**
