

Naturally Beautiful.
Simply Sustainable.

SOLIDO
Type F Coffee - Interior

SOLIDO are uncoated panels made for interior use with the natural look of cement.

Natural Expression

SOLIDO's unique texture is naturally created by the cement efflorescence and recycled materials, such as used paper cups and coffee beans.

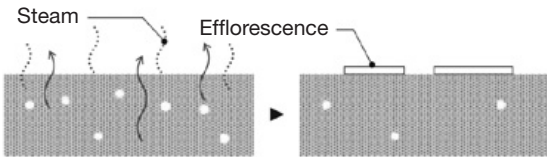

GOOD DESIGN AWARD 2016
BEST 100

Efflorescence

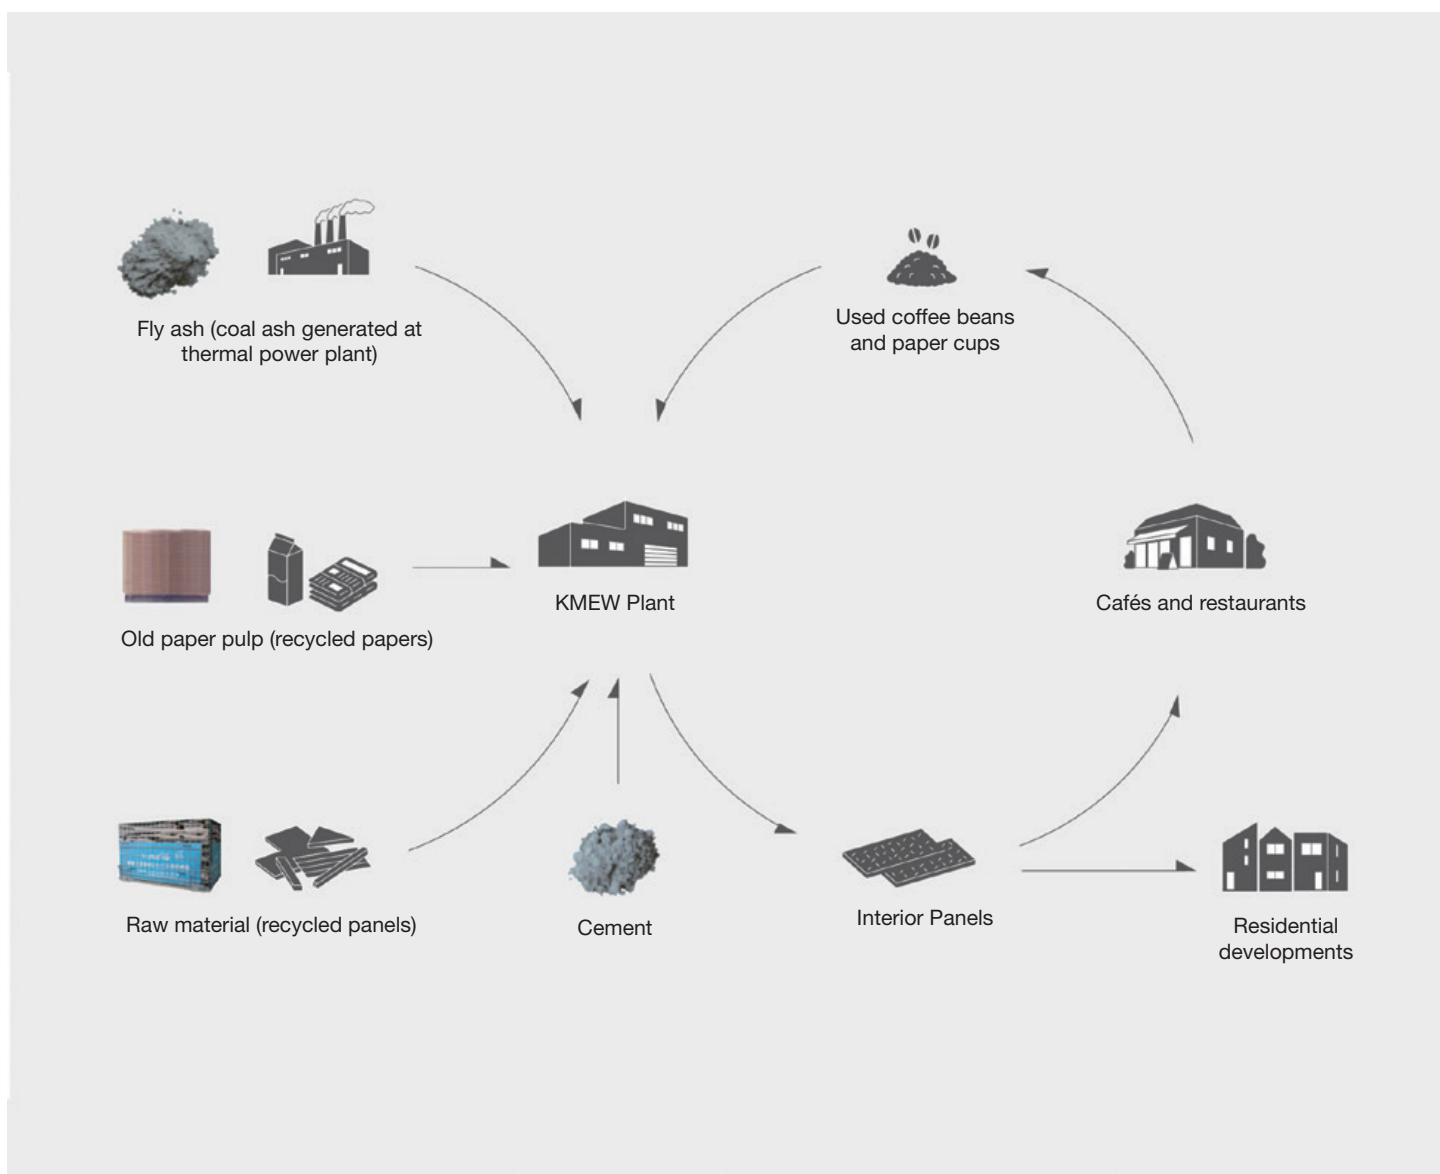

SOLIDO panels utilize a special efflorescence technique that creates a unique pattern on each panel.

Sustainable

The panels are made with 60% recycled materials, including used paper cups and coffee beans, fly ash and old panels.

The variable surface pattern on SOLIDO panels creates warm and natural looking interiors.

Panel Clip (5mm)	Clip Screw	Face Screw	Face Nail	Spacer Block (5mm)

SOLIDO panels make for stunning interiors. To beautify and protect the exterior of your building, use the CERACLAD Exterior Rainscreen System.

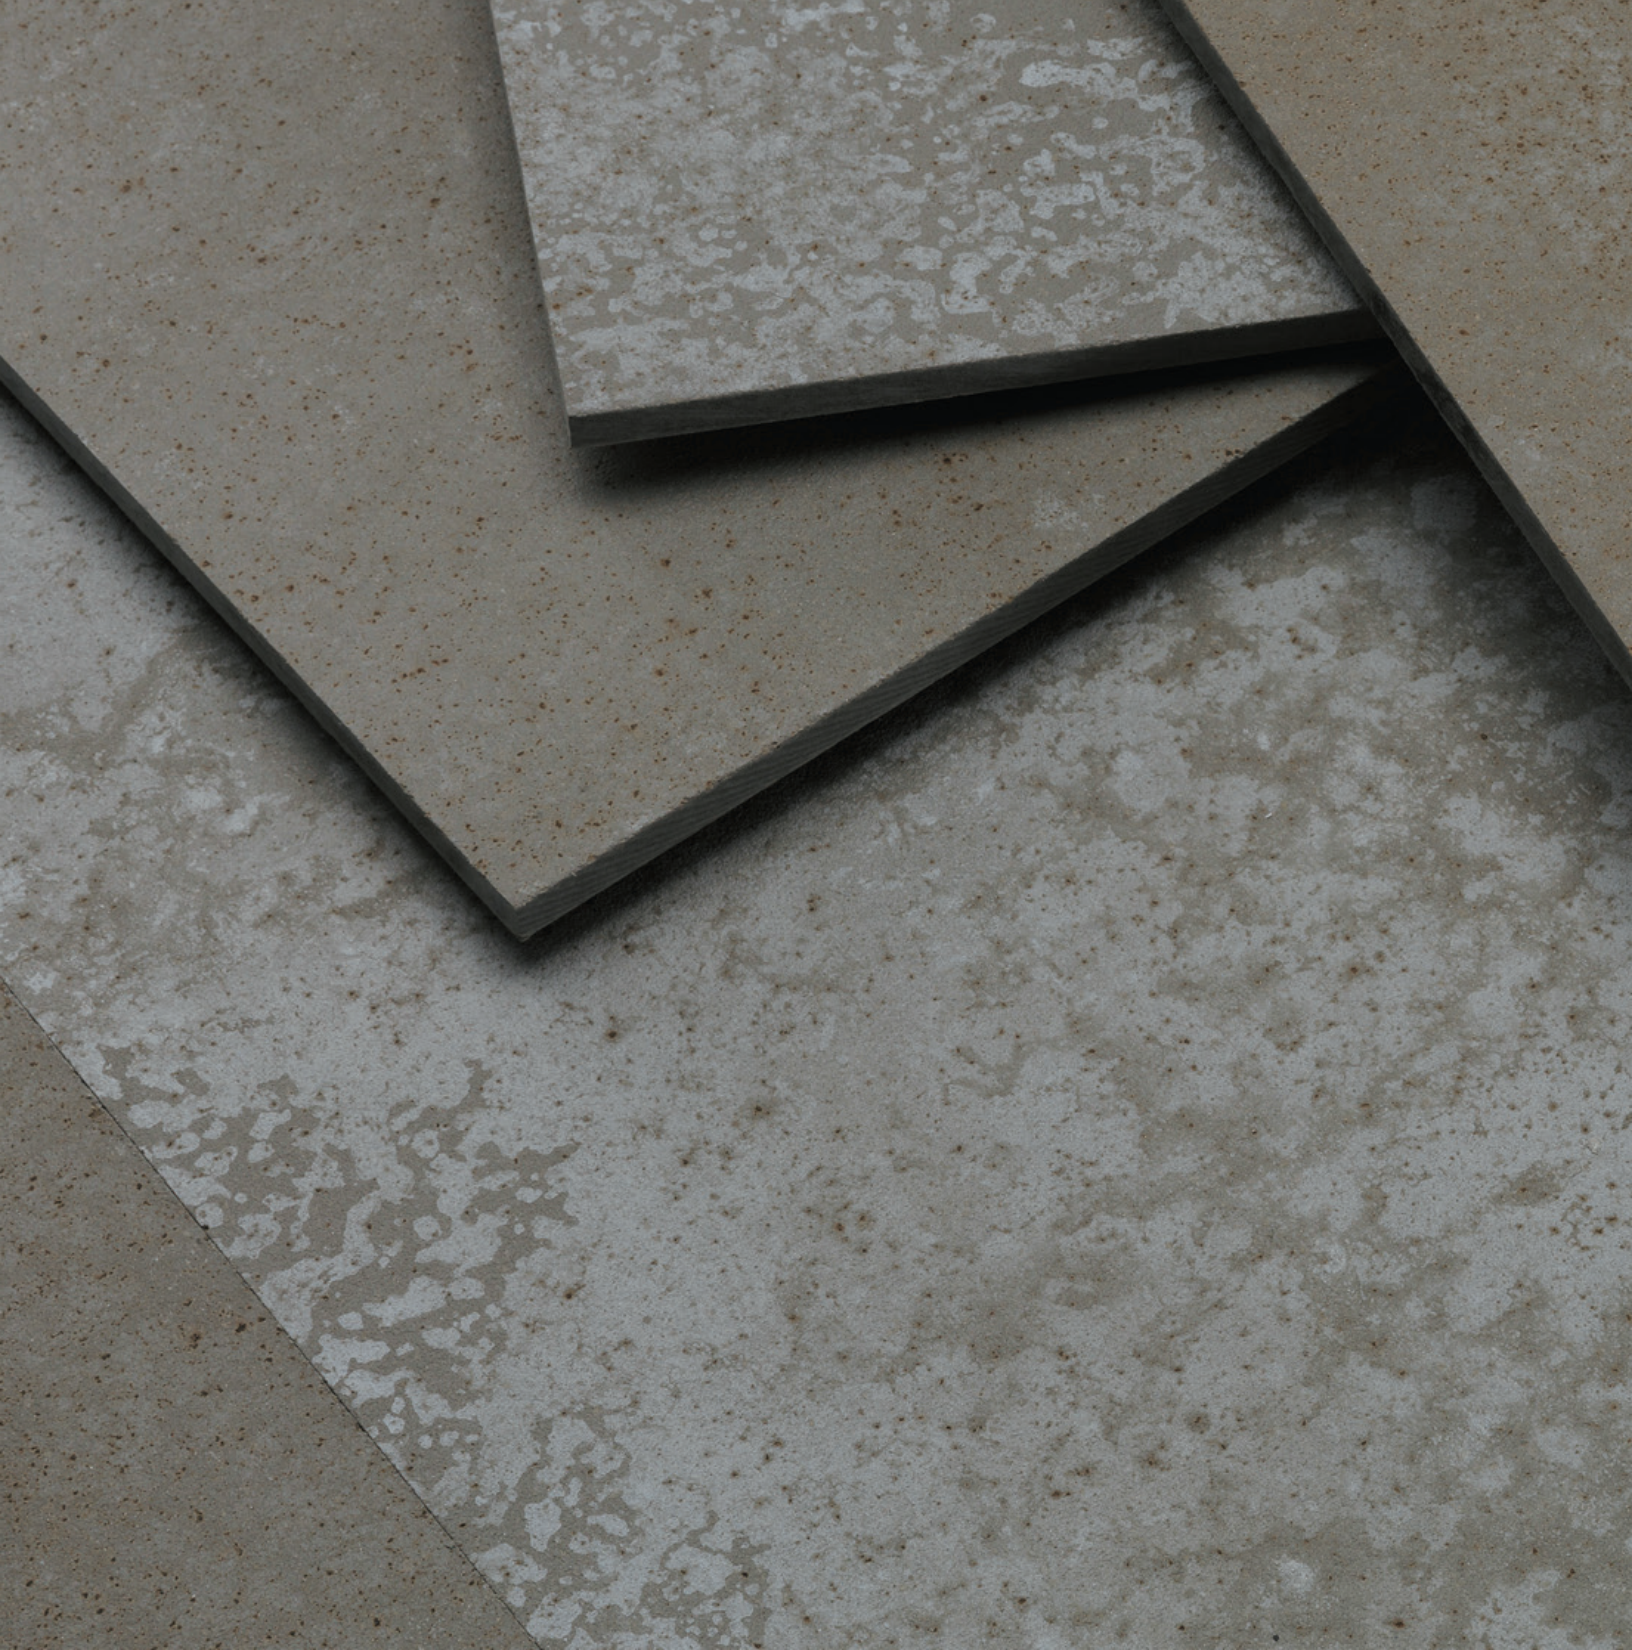

CERACLAD is a ceramic-coated siding assembly that incorporates proven rainscreen technology. Suitable for residential and commercial buildings, the CERACLAD Rainscreen Exterior Siding System consists of pre-finished siding panels and innovative mounting clips and accessories, all of which have been designed for ease of installation.

Manufactured and proven in Japan for more than 30 years, the CERACLAD system incorporates a ventilation layer in the exterior wall structure, allowing moisture to escape from within walls, which helps prevent mold, health problems

and dry-rot in walls. The end result is a high performance vented wall assembly that provides structures with long-term protection against water infiltration, and low maintenance wall surfaces with a long lasting, beautiful appearance. CERACLAD offers a broad palette of colors, rich textures and unique appearance, all backed with a 50 Year Limited Warranty and a 20 Year Limited Color Warranty for pre-finished ceramic coated panels, and a 15 Year Limited Finish Warranty for CREATIV™ custom color panels.
