

charlton

BUILDING RELATIONSHIPS. CREATING BUSINESS.

We help manufacturers transform, grow,
and gain access to global markets.

BUSINESS DEVELOPMENT

Our sales team is strategically positioned around the globe to grow your business at an expeditious rate. Where you find major OEMs you will find Charlton offices, living with the customer and cultivating business at the fraction of a cost of an internal salesforce.

GLOBAL SOURCING

We work in tandem with the global OEMs to locate high quality, difficult to find manufacturers of key components anywhere in the world. Whether your search includes a low cost magnesium supply or a high quality carbon fiber manufacturer, we can locate the company, vet them and bring them to series production.

ENGINEERING SERVICES

When the Charlton Group hits its stride and your engineers are buried in new business, our engineering group can help. We have in-house engineering that can help on a contract bases. Our engineers are all automotive industry veterans capable of any engineering stateside services your company may need.

WAREHOUSING AND LOGISTICS

We have listened to the needs of our overseas suppliers and have developed an in-house warehousing and distribution center to simplify the process of supplying to North America. Whether you are in need of warehousing, quality sorting or light assembly, our in-house distribution center can help.

OUR CUSTOMERS

FIAT CHRYSLER AUTOMOBILES

AND MANY MORE

The Charlton Group, Inc. provides superior representation and project management support for a global network of clients in North American, European and Asia Pacific markets.

Since 1978, we have uncovered new opportunities and guided clients to successfully becoming vital supply base components for OEM automotive companies and automotive tier-level manufacturers in major markets on every continent. Our mission is to serve our clients and customers everywhere and in every way.

WHAT CAN CHARLTON DO FOR YOUR COMPANY?
