11 Certified Cloud Computing Specialist

Duration:

120 hours

Program Description:

The Cloud Computing Certificate Program offers a comprehensive exploration into the dynamic world of cloud technology. Delivered through a sequence of stackable credentials, this program allows participants to sequentially build their expertise, delving deep into the features and functionalities of major cloud platforms, including AWS (Amazon Web Services), Microsoft Azure, Google Cloud Platform (GCP), and IBM Cloud. Engage with cloud fundamentals, dive into hands-on administration and applications, and master essential security principles on these leading platforms. At the conclusion of the program, the participant earns a Certified Cloud Computing Specialist (CCCS) certification.

Successful completion of all the below modules is necessary to earn the GCP credential.
