12 Certified Information Security Manager (CISM) Training Program

Program Description:

The Information Security Management Series is a structured progression of stackable credentials designed to provide participants with specialized knowledge and skills in various areas of information security management. By segmenting the original Certified Information Security Manager (CISM) Training Program, learners have the flexibility to acquire expertise in specific areas, earn micro-credentials for each module, and progressively stack them towards the full CISM certification.

Each module consists of lectures, practical sessions, case studies, and interactive discussions. Real-world insights are provided through engagement with industry professionals.

Duration:

150 hours

**Successful completion of all the below modules
is necessary to earn the CISM credential.**

1201 Information Security Governance Specialist

- Duration: 35 hours

1202 Information Risk Management Specialist

- Duration: 40 hours

1203 Information Security Program Development and Management

- Duration: 35 hours

1204 Information Security Incident Manager

- Duration: 40 hours
