

**CLEARWATER CASINO**  
BEACH ROCK LOUNGE  
LOCATION: SUQUAMISH, WA

**I-5 DESIGN**  
DESIGN PLAN BUILD

# OBJECTIVE

I-5 Design was able to turn the Beach Rock Lounge into a new, rejuvenated atmosphere drawing inspiration from Coast Salish art. Sleek and modern finishes are combined with color changing LED capabilities to make this an inviting area for guest to enjoy while watching sports and live entertainment.

# FEATURE DECOR ELEMENT

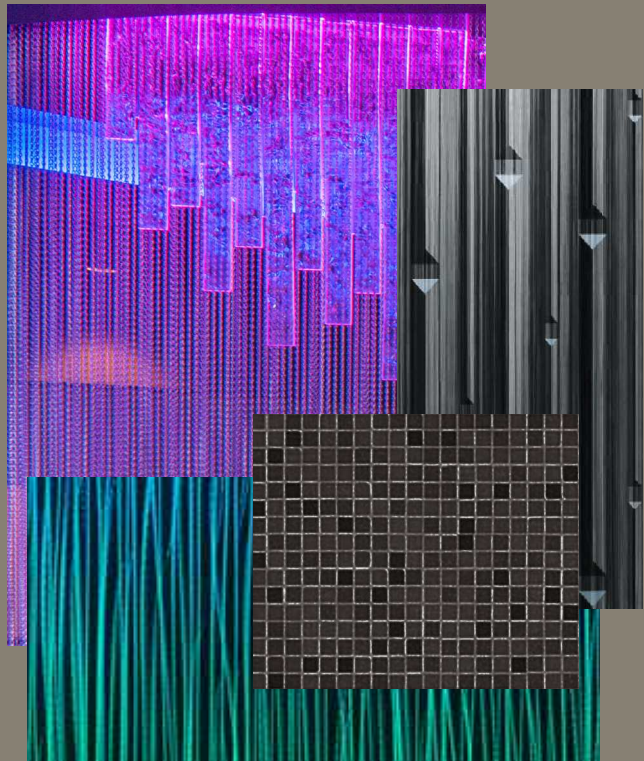

The strong curving shape of the floor to ceiling centerpiece provides a dynamic focal point for the venue while also creating a visual separation between the bar and the dance floor.

### CUSTOM CARPET

An original carpet design was inspired by Coast Salish carvings to create a unique pattern that is carried throughout the Casino.

### SPECIALTY MATERIALS

High quality and custom materials were used within the lounge, adding visual interest and dimension to the overall project.

## DESIGN CONCEPT

The design concept was created in 3D to allow the client to visualize how the space would look when all the elements were completed. Architecture drawings were then created from the model to ensure the final project carved out the design intent.
