## No Fault Safety Surface for Playgrounds

No Fault Safety Surface (NFSS) is comprised of the highest quality EPDM or TPV rubber granules blended with a polyurethane binder. NFSS is poured-in-place and professionally installed on site as a 2-layer system for playgrounds. The bottom impact absorbing layer is made of clean, recycled rubber buffing. The top decorative wear layer consists of high-quality EPDM or TPV rubber granules. The wear layer is available in a wide variety of color blends and provides the option to create fun theme shaped designs.

Utilizing our exclusive hand troweling and screed rod method, No Fault Safety Surface Playground System is engineered on site by our certified installation crew.

The complete No Fault Safety Surface System is designed to provide a resilient, porous, and seamless playground safety surface. It is the absolute best playground safety surface available for fall protection and ADA accessibility.

No Fault Sport Group provides coast-to-coast installation service to ensure consistent quality and premium customer service for all of our poured-in-place surfaces!

## No Fault Safety Surface for Water Play

No Fault Safety Surface for Water Play is manufactured on site. The blending of multiple color combinations to create custom inlaid graphic designs and patterns makes it the perfect play surface for pool decks, splash pads, and themed environments.

No Fault Safety Surface for Water Play is designed for barefoot play in wet areas. This system consists of the highest quality EPDM or TPV rubber granules integrated with a polyurethane binder and professionally installed at 3/8" (minimum) total depth over a concrete sub-base.

No Fault Sport Group provides coast-to-coast installation service to ensure consistent quality and premium customer service for all of our poured-in-place surfaces!

## Water Environment Applications

- Splash Pads
- Water Parks
- Landing Pads
- Pool Decks
- Walkways

"We absolutely love the new surface! The colors are so bright and vibrant, and are certain to add to the enjoyment of our families for years to come."

– Give Kids the World,  
Kissimmee, FL

## No Fault Safety Surface for Accessible Ballfields

No Fault Safety Surface for Accessible Ballfields is designed to be ADA compliant and promotes inclusive play for children of all ages and abilities.

No Fault Safety Surface for Accessible Ballfields is professionally installed by blending the highest quality TPV granules and polyurethane binder at a minimum of 1/2" thickness over concrete. Poured on site, the surface allows for the blending of color combinations to create custom patterns, lines, and designs.

Existing Accessible Ballfields can be given new life by applying the No Fault Safety Surface for Accessible Ballfields as a resurfacing option. Same as new fields, the surface is installed at 1/2" thickness over the old rubber surfacing and can incorporate a variety of colors and designs.

**No Fault BONDED Rubber Mulch (100% Shredded Mulch)**

No Fault Bonded Rubber Mulch (poured-in-place) utilizes clean, 100% recycled shredded rubber mulch combined with a single component polyurethane binder to achieve a unique, attractive, and natural look for outdoor activity areas. Always ready for use, the extremely porous bonded mulch allows water to rapidly flow through the surface.

Applied at various depths, No Fault Bonded Rubber Mulch provides an impact absorbing, seamless, and accessible safety surface that requires little to no maintenance.

No Fault Sport Group provides coast-to-coast installation service to ensure consistent quality and premium customer service for all our poured-in-place surfaces!

## No Fault Safety Tiles

No Fault Safety Tiles are manufactured in the USA utilizing 100% environmentally sustainable recycled rubber. Our tiles are engineered exclusively to reduce the risk of serious injury associated with falls from playground equipment and other elevated surfaces. The dense recycled rubber composition enables easy maintenance and provides a clean, safe alternative to loose products such as wood mulch, sand, or pea gravel.

No Fault Safety Tiles are available in four traditional pigmented colors. All tiles have matching components for transitions, corners, and ADA accessibility. No Fault Safety Tiles are an excellent choice for new or renovated playgrounds offering easy installation, low maintenance, and superior performance.

Safe & Versatile

Durable & Accessible

## No Fault SporTurf for Playgrounds and Open-Play Areas

No Fault SporTurf is the new generation of safety surface designed to bring sustainability, long-term value, and improved performance to playgrounds and multipurpose open-play areas. This beautiful and lush artificial turf created for playgrounds features proprietary sports performance fibers proven to outperform ordinary landscape fibers.

No Fault SporTurf for playgrounds can be installed over foam padding or a poured-in-place impact layer providing superior fall protection and ADA accessibility. The result is an impressive, sleek multi-functional play area that requires little to no maintenance and meets up to a 10 foot fall height.

No Fault Sport Group provides coast-to-coast installation services to ensure consistent quality and premium customer service for all SporTurf applications.

## Non-Rubber Infill

- Provides a safe environment for children & pets
- Cleaner than ordinary sand or crumb rubber
- Reduces turf temperature

*"The owners at Avanti Senior Living were extremely pleased with the No Fault SporTurf product. The natural look of the turf created a beautiful, low maintenance courtyard for the residents to enjoy. We enjoyed having knowledgeable and professional No Fault installers as our subcontractor and will definitely use them again for future projects."*

- Terry Hill- Womack Construction, Baton Rouge, LA

*"Every member of the No Fault team that we dealt with from the start was very professional, helpful, and exemplified customer service. Thank you for such great service."*

-Cypress Heights Academy, Baton Rouge, LA

*"The installers were great, hard workers, courteous, and professional. They did an awesome job. We will highly recommend No Fault for surfacing."*

- Strong Reach Playground, Bowden, GA

### Disclaimers:

- No Fault surface temperatures will vary with the ambient temperature; subsequently, the surfacing will become hot with rising temperatures. No Fault recommends the owner monitor the play area and provide adequate signage warning that equipment and surfacing exposed to the intense, direct sun can potentially burn. No Fault Sport Group assumes no liability to such exposure of the surfacing temperature as this should be monitored prior to use.
- All colors depicted in catalog may not be an exact match to the colors in the field.
