Finishing- & Polishing Machine

Qualität
MADE IN GERMANY

WENDT FPM230

Finishing- & Polishing Machine

ONE MACHINE – 5 SOLUTIONS.

The Wendt FPM230 is an angle polisher for Grinding, Blending and Finishing tubes as well as on flat and irregular surfaces. Additionally, it can be used with our Felt Flap Discs and Flap Rolls to create a Mirror Finish.

Built with durable components –
made in Germany.

PERFORMANCE FEATURES

- *Infinitely variable speed control*
- *Accommodate up to 230 mm discs*
- *1200 Watt*
- *900 – 2500 RPM*
- *4 m cable*
- *2,5 kg net weight*
- *Available with M14 or 5/8-11" spindle*
- *Available in 120 & 230 V*

Surface finishing operations, such as satin finishing and polishing with felt flap and finishing discs.

Grinding and finishing of fillet welds, interior angles and other hard to reach areas with our **Fillet Weld Grinder FWG300**.

Belt File BFS650 for edges, corners and grooves. Ideal for high stock removal application in hard to reach areas as well as surface preparation and finishing. Allows a penetration up to 200 mm with a 650 mm belt length. Accommodates belt widths of 5 and 12 mm. Safe belt guidance even when used with 5 mm belts.

Finish large surface areas with Flap Rolls. From cleaning, graining, satin finishing and mirror polishing.

Pipe Belt Sander PBS650/760 for grinding, finishing and polishing tubes up to 6" in diameter. Belt sizes 15/35/40 x 650 mm. Optional belt size 15/35/40 x 760 mm with a longer pivot arm. Up to 9" in diameter.
