

MEDIA CONSENT AND RELEASE

By electronically signing this media consent and release, I hereby grant to HudsonAlpha Institute for Biotechnology, together with its affiliates, members, officers, directors, employees, and agents (collectively, "HudsonAlpha"), the right and permission to take, capture, publish, and otherwise possess and Use photographs, film, video, audio, electronic representations, images, sounds, recordings, and other media made of me during my participation in GTAC: Ecosystem Genetics (the "Media"); the sole and exclusive ownership in and to the Media, including any indicia of identity, as such term is defined in the Alabama Right of Publicity Act, related thereto; and the right to edit, alter, destroy, or otherwise change the Media without any rights of approval from me. I hereby authorize the reproduction, sale, copyright, exhibit, broadcast, storage, use (whether for advertising, selling, or soliciting purchases of goods, merchandise, or services; fundraising or solicitation of donations; promotions; marketing; research; training and education; news; website and social media uses; or otherwise), and distribution of the Media, in such forms now known or hereafter devised, and for any purpose (the "Use"). I specifically waive any right to compensation for the Use of the Media.

I hereby release HudsonAlpha from any and all liability for the Use of the Media and agree to hold harmless, release, and forever discharge HudsonAlpha from any and all causes of action at law or in equity that I may have now or in the future, including without limitation causes of action for libel, slander, invasion of privacy, copyright or trademark violation, right of publicity, and/or false light, arising from or in any way relating to the possession and Use of the Media.

I hereby represent and warrant that I have full authority to enter into this media consent and release; that I have read, understand, and agree to this media consent and release; and that I understand that an electronic signature has the same legal effect and can be enforced in the same manner as a handwritten signature.
