About Yourself

Biographical Info
21st Century Learning Consultant
West Cluster

Put your URL here: http://username1234.commons.hwdsb.on.ca

Then fill out your blog URL (the address someone would need to type into a browser to find your site) into the **Website** area

Why would I do this?

The Author Avatars functionality lets you create a grid of users on a new Page. One of the options in this button is to have the avatar link to a user's blog. If you had students on a group blog, but wanted to create a grid for your audience to be able to visit your students' personal blogs, this would be a nice way to do that rather than creating a blogroll on the sidebar.
