

Dear Rousseau Community,

Our 2nd Annual Science Fair preparations are in full swing and we are looking forward to sharing all our wonderful scientific knowledge with the Rousseau Community on Monday, June 12th.

Students have at least one break Monday and Tuesday to get together with their partners to work on their project boards if needed and receive feedback on their progress. They will not have to bring in their back boards this Thursday for Stage 4. They should just keep in mind that it will need to be brought in the day of the fair, Monday, June 12th. Thank you.

9:05am

Students drop off projects after the bell to gymnasium (please do not come into the school before bell time as well will be busy with preparations)

10:00am - 10:53 am

Science Fair Opens for community viewing of projects

11:33am - 1:09pm

Science Fair Judging and community viewing of projects

1:09pm.

Science Fair closes

Lastly, thank you parents /caregivers, for supporting your child to explore these scientific concepts and to end the year in academic excellence. Each child will have benefitted from this experience with new knowledge, work/ organization/time management skills, presentation skills, collaborative skills and the chance to explore their interests in these developing fields of science, engineering and technology. I look forward to seeing all the wonderful work that is presented.

Mrs. Laws
